

ASSAIL L'AGUE IN BEHALF OF IRISH PEOPLE

**Appeals Draw Cheers
from Crowd in Com-
mittee Rooms**

WASHINGTON, Aug. 30.—Im-
passioned protests against the
league of nations were presented
in behalf of American Irishmen
today at a hearing before the sen-
ate foreign relations committee.

In dramatic appeals which drew
cheers from the crowd jamming
the committee room the spokes-
men declared the covenant sought
to pronounce a death sentence on
the aspirations of the Irish people
and to fasten forever upon Ire-
land, a "yoke of British oppres-
sion."

Dunne Among Speakers.
Among the speakers, who said
they voiced the sentiments of
more than 20,000,000 Americans
of Irish origin, were Frank P.
Walsh of Kansas City, Michael J.
Kyan of Philadelphia and Edward
F. Dunne, former governor of
Illinois, members of the Ameri-
can commission which sought to
get a hearing for Ireland at Ver-
sailles.

An opening statement was
made by Justice Daniel F. Cohan-
an of New York, and the legal as-
pects of the covenant as they af-
fected Ireland were summed up by
Bourke Cockran of New York.

Representatives of Greek so-
cieties also appeared before the
committee and made a statement
of the claims of the Greek people
regarding the peace settlement.

Ask Rejecting of Treaty.

Rejection of the peace treaty
was asked by the Irish speakers,
who charged that under the cov-
enant Great Britain would receive
a guarantee that no outside na-
tion ever would help Ireland gain
her independence. The domina-
tion of the British fleet over the
sea, they declared would be made
so complete by the treaty as to be
a direct menace to the United
States.

In the Versailles negotiations
Walsh, Ryan and Dunne declared,
President Wilson's ideals had
been brushed aside by the other
powers. At the open session when
the league covenant was approved
they said delegates in all parts of
the hall tried to make protest but
were silenced by the "steam roller"
methods of the controlling fig-
ures.

Paint Gloomy Picture.

The three speakers painted a
gloomy picture of conditions in
Ireland. Civil law had been sus-
pended, they declared and local
officials were being arrested and
their homes searched without
warrant, while women and chil-
dren were ground beneath a des-
potic military rule whose excesses
they declared the censorship had
concealed from the United States.
The three commissioners said they
had been referred to Colonel
E. M. House, when they tried to
get a hearing with President Wil-
son in Paris and that later Sec-
retary Lansing had written them it
would be useless to press their
requests further; their utterances
while in Ireland had offended
statesmen.

Great Britain, they said, had
drawn the United States into the
league to help guarantee such
"outrages" as she was committing
in Ireland.

The same time they asserted,
England had been careful to pre-
serve a sea power which gave
her "a grip on every quart of salt
water in the world," and which
under present circumstances
could be intended for use only
against the United States.

EXECUTE FRENCHMEN CONVICTED OF MURDER

PARIS, Aug. 30.—Two at-
torneymen, Moujot and Janin, con-
victed of murdering and robbing
two women proprietors of cafes
were executed today at Vin-
ces.

Moujot struck the warden on
the head with an iron bar, as the
warden entered the cell. He
fought furiously before being
overpowered. With arms and legs
bound, he together with Janin,
was taken to Vincennes in a closed
automobile. Both men refused
to have their eyes bandaged and
died shouting "death to the po-
lice."

CHARGES SOME OF WITNESSES ARE "COERCED"

WASHINGTON, Aug. 30.—While
western and southern stock rais-
ers appearing before the senate
agriculture committee continued
to attack the Kenyon and Ken-
drick bills to license the packing
industry Chairman Gronna put
into the record a telegram from
the American Livestock associa-
tion charging that in some cases
the witnesses were "coerced" and
in other cases had their expenses
paid by the five big packers.

300 MINERS BARELY ESCAPE DEATH

Pana, Ill., Aug. 30.—Three
hundred miners barely escaped
death today when the powder
house of the Springfield mine ex-
ploded and destroyed the top
works of the mine. The men es-
caped through an air passage two
miles long.

Austria Will Receive Peace Treaty Tuesday

BULLETIN.
PARIS, Aug. 30.—The treaty
of peace to be handed the Aus-
trian delegation on Tuesday does
not solve the problem of the dis-
position of Fiume according to
The Temps.

PARIS, Aug. 30.—The supreme
council this morning decided to
hand the peace treaty with Aus-
tria to the Austrian delegation
next Tuesday afternoon. Five days
delay will be granted the Aus-
trians before signature of the
treaty.

The council concluded its ex-
amination of the treaty and ap-
proved the covering letter to ac-
company the document. The text
of the treaty will be sent to
printers this evening. Premier
Clemenceau presided at the meet-
ing of the council.

NEARLY ALL PEORIA FACTORIES SHUT DOWN

PEORIA, Ill., Aug. 30.—The
general strike called as a protest
against a manufacturers "black-
list" ended its second day today,
with nearly all the large factories
of the city shut down, but with
the teamsters and ice handlers
the only local unions joining as
crafts in the demonstration.

Post car service was resumed
throughout the city at 6 o'clock this
morning after the company had
resumed operation of cars dur-
ing the night.

Patrolmen guarding the street
car barns made fifteen arrests
today when strike pickets refused
to disperse. No violence has been
reported.

At 3 o'clock this afternoon sev-
eral hundred strikers who par-
aded the business district Friday
in a body of 2,500 workmen,
marched toward the residential dis-
trict on the west bluff. Police
accompanied the marchers.

ACTS TO PREVENT MISUSE OF UNIFORMS

WASHINGTON, Aug. 30.—Sec-
retary Baker in a letter to Colonel
Arthur Woods, assistant to Mr.
Baker in charge of obtaining em-
ployment for returned soldiers
requests that means be taken to
prevent the misuse and commer-
cialization of the army uniform
by discharged men.

"I suggest," said the secretary
in his letter made public today
that you bring all the discourag-
ing influence you can to bear up-
on the practice which has grown
up here in the country of employ-
ing men still wearing the uniform
of the army to peddle upon the
streets. The adjutant general of
the army when appealed to by
some employer replied properly
that the department had no legal
right to interfere with such em-
ployment by discharged men but
obviously every sound judgment
is against the practice."

ROOSEVELT SPENDS BUSY DAY IN CHICAGO

CHICAGO, Aug. 30.—Lieut-
enant Colonel Theodore Roose-
velt was enthusiastically received
today and he put in a strenuous
day. Receptions and meetings
with breakfast, luncheon, dinner
and a night gathering of return-
ing fighting men filled his stay. He
is on a speaking tour for the Amer-
ican Legion.

At Colonel Roosevelt's request
notice was served upon 119 posts
of the American Legion in North-
western Illinois that they should im-
mediately begin active participa-
tion in every public movement.
"We're going to sow Ameri-
canism in every nook and corner
of this nation," he commented.

LARGE PERCENTAGE OF ARMY DISCHARGED

WASHINGTON, Aug. 30.—
Ninety seven per cent of the
overseas force and 79 per cent
of those in the United States have
been demobilized, the weekly war
department reports today showed.
Only 65,813 men remained in Eu-
rope on Aug. 26 while there were
324,000 in the United States and
in Siberia 8,500.

Voluntary enlistments were an-
nounced as 107,696, of whom
3,657 enrolled for Siberian ser-
vice.

REPLACEMENT TROOPS REACH VLADIVOSTOK

VLADIVOSTOK, Tuesday,
Aug. 19.—(By The A. P.) The Amer-
ican Transport Thomas, with
600 replacement troops, arrived
here today and will sail Aug. 22
with 540 American soldiers, ar-
riving at San Francisco in about
48 days. This is the first large
detachment of the American
forces in Siberia to sail for home.

PERSHING TO LEAVE PARIS THIS EVENING

PARIS, Aug. 30.—General Per-
shing will leave Paris for Brest
Sunday evening, sailing on the
Leviathan Sept. 1. The Panama
peace delegation in behalf of the
president of Panama has present-
ed General Pershing with a gold
medal in appreciation of his ef-
forts in the allied cause.

HOOVER IN LONDON

LONDON, Aug. 30.—Herbert
Hoover has arrived in London for
the purpose of winding up the
work of the Belgian relief com-
mission. He will leave tomorrow
for Paris and returning will sail
on the Mauretania on Sept. 6 for
home.

GEN. PERSHING REFUSES TO BE WITNESS

**Finds it Impossible to
Comply on Last Day
in France**

PARIS, Aug. 30.—General
Pershing has refused to testify be-
fore the sub-committee of three of
the congressional committee on
expenditures by the war depart-
ment which has been conducting
an investigation in France.

The general's refusal led to the
issuance of a joint statement this
afternoon by Representatives
Royal C. Johnson and Oscar E.
Bland of the sub-committee in
which regret was expressed that
there would be a conflict between
the military and civil authorities
of the government.

In a separate statement in
which Representative Johnson
did not join, Mr. Bland declared
the general's action was an ex-
ample of the "indifference and
contempt" shown during the en-
tire war by the war department
toward the wishes of the people
and their representatives.

Says Action Open.

Gen. Pershing, on being shown
the statements issued by the mem-
bers of the committee, said that
all activities of the American
Expeditionary Forces were of
course open to investigation, but
that he found it impossible on the
last day of his stay in France to
comply with the request of the
committee, as all his records had
been shipped to the U. S.

Altho Gen. Pershing said he
had no comment it was learned at
his headquarters that all docu-
ments of the general staff were
shipped to Brest Aug. 25 and were
in the hold of the Transport
Leviathan before he received no-
tice that he was expected to ap-
pear before the committee.

HINDENBURG SPEAKS TO HANOVER STUDENTS

HONOVER, Prussia, Aug. 30.—
By the Associated Press.—
Addressing students here on the
occasion of the fifth anniversary
of the battle of Tannenberg, Field
Marshal von Hindenburg said:

"If five years ago, I was per-
mitted to win a brilliant victory
it was due to the dispensation of
Providence and the spirit of the
troops assigned me. We must
hold on to this spirit in the sad
days which are now overcoming
us; we must not lose courage be-
cause the Pariahs of society and
helots are our enemies."

"We must again become that
which we once were, when in Ver-
sailles the new German empire
was proclaimed I being among
those permitted to join in the
first three cheers for the em-
pire."

SOLDIERS REPLACE STRIKING ACTORS

ROCKFORD, Ill., Aug. 30.—
Men in khaki who enter the
dressing room from which they
emerge a few minutes later be-
fore the footlights as villains,
heroes, or giggling girls in musi-
cal comedies and farces, have
taken the places of the profes-
sional actors at the Liberty
Theatre at Camp Grant which has
been temporarily affected by the
actors' strike in Chicago and New
York.

The amateur shows will be
given under the supervision of
Captain Francis B. Eastman, camp
moral officer, who has issued an
announcement calling for the
service of all amateur Theatians
in the service at camp.

RENEW SEARCH FOR MISSING AIRMEN

SAN DIEGO, Calif., Aug. 30.—
Renewed activity in the search
for Lieutenants F. B. Waterhouse
and C. B. Connolly, missing Rock-
well field aviators was started to-
day when it was learned the re-
port that they had been found
was erroneous.

The submarine chaser, No. 306,
was ordered to Ensenada. The
tug Challenge which arrived at
Ensenada yesterday was ordered
back to San Diego.

It is expected that several
other submarine chasers will be
mustered into the service and will
be dispatched south.

TITTONI TO MEET BRITISH PREMIER

PARIS, Aug. 30.—(Havas).—
The Italian foreign minister, Sig-
nor Tittoni and the British prime
minister, David Lloyd George,
will meet Sunday near Deauville.
They will discuss the solution of
the Fiume problem looking to
make Fiume an Italian city, the
Hinterland being leased to the
league of nations.

ACTION CAUSES SURPRISE

Santiago, Chile, Friday, Aug.
29.—Great surprise was caused
in political diplomatic and ad-
ministration circles here today
by the announcement from Wash-
ington that the United States re-
cognized President Leguia as head
of the de facto government of
Peru. It was indicated that this
step was not expected.

Find Carmack Slayer Killed Mysteriously

NASHVILLE, Tenn., Aug. 30.—
Robin J. Cooper, a Nashville at-
torney, whose trial for the killing
of Former United States Senator
E. W. Carmack during the cele-
brated pistol duel between his
father, Colonel D. B. Cooper and
Carmack in 1908 attracted coun-
trywide attention, has been mur-
dered here under mysterious cir-
cumstances.

Take Body from Creek.

Cooper's body was taken from
Richland creek today soon after
his bloodstained automobile had
been found on a bridge near his
home in the fashionable Belle
Meade Park section. The skull
had been crushed.

The coroner's inquest today de-
veloped no clues to the murderer
or murderers, but the police to-
night were proceeding on the
theory that Cooper met his death
at the hands of a whiskey seller.
The authorities are known to be
searching for an unidentified
man, believed to have been a
Nashville whiskey merchant, who
it is thought, enticed Cooper from
his home Thursday night with
the promise to deliver him a
stock of liquor.

Cooper, police said, was over-
heard to remark that he was ex-
pecting some liquor the latter
part of the week. The police also
said that it has been learned that
Cooper borrowed whiskey recent-
ly with a promise to return the
amount Thursday or Friday.
Cooper is known to have had
about \$200 on his person when he
visited Belle Meade Park and
after meeting the supposed whis-
key pedler, it is believed by the
authorities that he was murdered
for his money.

Believe Man Lured from Home.

Authorities assume that he was
lured from his home to the se-
cluded bridge over the creek and
there killed. The condition of
his clothing indicated he had
been dragged some distance be-
fore he was thrown into the
water. Mrs. Cooper, who is the
daughter of Milton J. Smith,
president of the Louisville &
Nashville railroad, has been visit-
ing in Louisville, Ky., and her ab-
sence accounts for the fact that
the disappearance of her husband
did not become known until to-
day.

There was no evidence that the
Cooper home had been robbed
after the murder and some doubt
that the murderers could have
expected that the lawyer would
have any great sum on his per-
son. His empty pocketbook, how-
ever, was found in the bottom of
the automobile.

Governor Roberts has offered
a reward of \$5,000 for the arrest
and conviction of the murderers,
and a similar amount has been
offered by the family.

MENONITES NAME YODER MODERATOR

HARRISBURG, Pa., Aug.
30.—S. C. Yoder, of Kalona, Iowa,
was elected moderator at the na-
tional conference of the Mennon-
ite church which closed its ses-
sions here today. Delegates at-
tending represented sixteen
church conferences, including 19
states, Canada and India.
The conference adopted a reso-
lution requesting the United
States and Canadian governments
to respect the Mennonite doctrine
with regard to war in event of
the adoption of compulsory mili-
tary training. In case of war the
resolution asks that members
of their sect be permitted to serve in
the non-combatant branches of
the army.

PALMER ATTACKS SEN. FREELINGHUYSEN

WASHINGTON, Aug. 30.—
A. Mitchell Palmer, whose nomi-
nation as attorney general was
confirmed yesterday by the sen-
ate, came back vigorously today
at Senator Freelinghuyesen, Repu-
blican, New Jersey, leader of the
senate forces which had held up
confirmation of the nomination.
Charging that Mr. Freelinghuy-
esen was active in behalf of Ger-
man property owners in the Unit-
ed States during the war and at-
tempted to influence legislation
which would affect adversely com-
panies in which he personally
was interested financially, the at-
torney general gave a detailed
account of alleged activities of the
New Jersey senator during the
war.

GERMAN ARMY TO MARCH INTO RUSSIA

PARIS, Thursday, Aug. 28.—
(By The A. P.)—A German army
of nearly 40,000 men with mod-
ern equipment, including more
than 300 airplanes, has assem-
bled in Lithuania and is prepar-
ing to march into Russia, ostensibly
to reach and help Admiral
Kolchak, according to Lithuanian
sources here.

BY STEFAN BOUDARIEN

Paris, Aug. 29.—Friday.—The
supreme council today fixed the
boundaries of Styria and decided
that no plebiscite should be held
there. The Slovenians were to
hold a plebiscite and the Italians
desired one.

KING TO SAIL ABOARD U. S. WARSHIP

BRUSSELS, Aug. 30.—King Al-
bert, Queen Elizabeth and Crown
Prince Leopold will leave for
America between Sept. 20 and
Sept. 24, on board a U. S. war-
ship.

Proposes New Universal Army Training System

WASHINGTON, Aug. 30.—Or-
ganization thru a new system of
universal military training of a
great citizen army to be known
as the National Guard corps was
proposed today by the National
Guard association in a statement
made public thru the National
Security league. Thirty divisions
of the national guard corps, func-
tioning as a separate corps of the
United States army under the di-
rection of the secretary of war is
proposed.

Instead of subjecting all 19
year old youths to a three months
course of intensive military train-
ing as proposed by the war de-
partment the guard association
would have military training as a
part of the national public school
system, with youths entering this
course when fourteen years of
age. After this preliminary
training they would be given two
months training in the field and
then would be graduated into the
guard, where they would serve ac-
tively for two years and nine
years before being placed in the
reserve for three years.

Estimating that 500,000 youths
would be graduated into the
guard every year, the statement
said that after six years' we
would have a most effective army
of three millions of men, 1,500-
000 in the so-called active service
and 1,500,000 in reserve, all of
them graduates of the training
camps.

To immediately re-establish
the national guard corps and
"give it a good start the associa-
tion proposed that the law pro-
vide for the reorganization in
this corps of the former national
guard and national army divi-
sions which existed during the
war. All officers who were hon-
orably discharged from such
units would, upon their own ap-
plication be recommissioned in
the grades held by them at the
time of the discharge and as-
signed to units of the national
guard corps in the vicinity of
their homes.

HOPE FOR PEACEFUL STEEL SETTLEMENT

WASHINGTON, Aug. 30.—
Efforts to organize the workers in
the steel industry still are being
made with the hope that an am-
icable adjustment of their de-
mands "may be reached before
any outbreak or cessation of work
shall be inaugurated." Samuel
Gompers, president of the Amer-
ican Federation of Labor said to-
day in a statement summarizing
the work of the federation's ex-
ecutive council.

The council has been in ses-
sion three days considering the
general labor situation but Mr.
Gompers did not deal with the
situation as a whole.

President Wilson was asked
yesterday to intervene in the con-
troversy but he has made no
move, some officials believed he
had declined to take a hand.
Meantime, the time limit set for
Chairman Gary of the Steel cor-
poration to answer the men's re-
quest for a conference has ex-
pired without an answer being
received.

PROPOSE INCREASE IN OFFICERS' PAY

WASHINGTON, Aug. 30.—In-
crease of 30 per cent in the pay
of all officers of the army, navy
and marine corps and 50 per
cent for enlisted men is proposed
in a bill drawn by Rear Admiral
T. J. Cowie, former paymaster
general of the navy for which
congressional support is sought.
Admiral Cowie in a statement
made public today said the salar-
ies of all government employees
civil and military should be in-
creased immediately. He sug-
gested an advance of 100 per cent
in the salaries of the president,
vice president and cabinet officers
and their assistants and 50 per
cent for members of congress.

LARGE AIR FORCE AVAILABLE FOR DUTY

WASHINGTON, Aug. 30.—
Aerial forces available for border
duty comprise 159 D. H. Four
planes, the majority of which are
equipped with Martin and Lewis
machine guns, radio apparatus
and bombing devices, it was said
today at the war department.
Two bombardment squadrons are
based at El Paso, two reserve sur-
veillance squadrons and one re-
serve patrol squadron at San Antonio,
one patrol squadron at San Diego
and two reserve bombardment
units at Houston.

GEN. SAGE TO GO TO FRANCE

WASHINGTON, Aug. 30.—Brig.
Gen. William H. Sage was as-
signed today to command the pro-
visional infantry brigade which
is to be sent to Coblenz and if
necessary aid in policing Silesia.
He has been on duty at Camp
Wanston, Kan.

FAX ON CARNEGIE'S ESTATE \$7,000,000

New York, Aug. 30.—About
\$7,000,000 of the \$30,000,000
left by the late Andrew Carnegie
will find its way to the United
States treasury as inheritance
taxes, according to an estimate
made by tax experts today.

BARON COMING TO U. S.

BRUSSELS, Aug. 30.—Baron
Emil de Cartier de Marchaine left
Brussels yesterday for Washing-
ton as the first Belgian ambas-
sador to the United States.

COAL MINERS IN SPRINGFIELD BACK ON JOBS

**Operators Say All
Mines in District
Hoist Coal**

SPRINGFIELD, Ill., Aug. 30.—
Faced by forfeiture of their
local charters for failure to re-
sume work today, coal miners of
the Springfield sub-district were
on the job this morning.

Operators said all of the mines
in this sub-district were hoisting
coal with practically complete
forces.

Insurgents in the Belleville and
Peoria sub-districts, however, ac-
cording to Lawrence Lamb, chair-
man of the state insurgent policy
committee, were still in control
with shafts shut down.

Frank Farrington, president of
the United Mine Workers of Illi-
nois, was in Chicago today, sup-
posedly on a mission connected
with the existing rebellion. There
was nothing at state miners' head-
quarters here to indicate that
there would be any relenting
from the Farrington mandate ex-
cluding locals on strike today. No
estimate on the number of locals
affected could be obtained early
today.

Altho the Springfield sub-dis-
trict mines were operating today,
a few hundred insurgents refused
to go back to work and these
men held a meeting at a down-
town hall this morning.

George Fox, a member of the
Springfield sub-district policy
committee, was arrested today by
deputy sheriffs and placed in jail
charged with attempts to intimi-
date miners who wanted to go to
work.

Telephone reports received
here from St. Louis by coal op-
erators said fifteen mines in the
Belleville sub-district, idle yester-
day, were working this morning,
but were besieged by bolsherois
bands of insurgent miners who
moved from mining camp to min-
ing camp in the interest of the
strike. Many men were reported
to have been prevented from go-
ing to work today.

The excursion of an "insurgent
army" that was announced yester-
day as ready to march from
Bell into southern Illinois coal
fields to promote the cessation of
work was scouted by operators
here as impossible because of the
hostility of southern Illinois
miners to the radical program.

LA FOLLETTE AGAIN BLOCKS LEASING BILL

WASHINGTON, Aug. 30.—
Maintaining his average for four
hours speaking a day for the
fourth consecutive day, Senator
LaFollette, Republican, Wisconsin,
today blocked plans of those in
charge of the public land leasing
bill for a final vote before the la-
bor day recess.

The Wisconsin senator charged
that the bill is a monopoly meas-
ure for the benefit of the Stand-
ard Oil company, the senate,
however, was able to adopt a
number of amendments including
one by Senator LaFollette which
would prohibit the employment of
boys under 16 years or girls and
women irrespective of age below
the surface of mines opened un-
der the bill.

DENIES MEXICANS AIDED U. S. TROOPS

MEXICO CITY, Friday, Aug.
29.—Denial that Mexican troops
co-operated with the American
punitive expeditions on the Texas
border in the pursuit of outlaws
was made tonight by Gen. Juan
Barragan, chief of the presiden-
tial staff. This announce-
ment was made after special
press dispatches had stated that
such co-operation had occurred.
Pointing out that the Mexican
government had protested against
the presence of American troops
on Mexican soil, Gen. Barragan
declared that co-ordinated action
had not taken place and would
not be authorized.

TO MAKE LAW OBSERVANCE POPULAR.

The citizen traffic officers who have volunteered to help make law observance popular here are undertaking a good work. The number is to be augmented to seventy-five or more and the men have entered into the work with a zeal and enthusiasm which promises success.

The great majority of people have an honest desire to observe the law and to regard the rights of other people. The automobile laws of the state are quite complex, the provisions are many and it is not surprising that there are numerous infractions of the law just thru ignorance of the law. The organized effort on the part of citizens has been beneficial in other cities and will be here.

THE OBSERVANCE OF LABOR DAY.

All arrangements have been completed for the observance of Labor day in Jacksonville tomorrow. While there have been some minor disturbances in industrial circles here in Jacksonville during the past months, as a whole the city has been very fortunate in this regard. The industrial workers in this city are for the most part men of conservative type, who reason and the effect of their influence has been marked.

The country's prosperity depends upon labor and it is well, indeed, that one day in the year has been legally set aside that the fact of obligation and dependence upon labor may be emphasized. The celebration here tomorrow promises to be worthy of the day.

WORTH WHILE PHILANTHROPY.

Greenfield is another moderate sized town in this locality that has set a fine example in philanthropy. Twenty children from the tenement district of Chicago have spent the past two weeks in Greenfield homes. Most of them were homeless children and their delight in the comfortable surroundings they had while on this outing was in some cases almost pathetic.

Waverly had previously done its bit in this excellent and practical work.

FIGURES THAT VARY.

The St. Clair county farm adviser has caused a stir by declaring that farmers lose three or four cents a bushel by producing wheat on the \$2.26 government basis. This estimate is quite at variance with that of \$1.09 as the cost of a bushel of wheat made by one agriculturist. The fact seems to be that in both in-

stances these are extreme figures, and that the real cost of producing a bushel of wheat under present conditions varies greatly, according to locality, and is somewhere between these two estimates.

THE DEBT TO ENGLAND.

Col. Chipperfield in his address Friday made strong appeal to patriotism but at the same time he handled the facts without gloves and pointed out that there should be no false estimate in America of what this nation has done in the war. Not every American seems to realize that the millions of American soldiers never would have been transported across the sea had it not been for British ships to carry them, and British ships to act as convoys and keep away submarines.

Neither have these patriotic Americans generally accepted the fact that no aeroplanes and no artillery from the U. S. had any part in winning this contest.

MINISTERS IN THE POPULAR MOVEMENT.

Come to think of it, there is no special reason why ministers should not be entitled to the right of collective bargaining, just as it is claimed by other men who work. At any rate, it is understood that the ministers of Chicago have effected an organization and started a movement whereby it is expected that there will be an increase in salary for all.

The ministers do not exactly intend to strike, but they do intend to let their church members know that the expenses of ministers have increased just like those of laymen, and that there has been no corresponding increase in salaries.

CONGRESSMAN MCKINLEY AS AN ORATOR.

Congressman McKinley may not be an orator in the common acceptance of the term but he has the eloquence that comes from sound argument and clear logic. The congressman yesterday discussed several of the important national questions. He went on record as believing that America should first of all attend to the troubles of this hemisphere without mixing up in those of the old world. Yet the statements were made in a way that could not offend the greatest admirer of President Wilson. He pointed out that living costs will be high unless there is a greater production and unless people show more of economy.

Still no ardent labor advocate could resent the statement. The figures and statistics were given to show the great increase in government costs and that taxes must continue to be high. Ordinarily the man who deals in statistics wears out an audience. It was not so with Congressman McKinley. The Shantung situation was explained with such clearness that many who before knew little about this subject could understand that America would be recreant in the matter of friendship to China if America should let the province of Shantung remain under the control of Japan without protest.

The danger of Oriental domination thru Japan—the fact that there is a “yellow peril”—these things were pointed out, but still the audience saw Congressman McKinley as an optimist and not as an alarmist. All this may not be oratory but it certainly constitutes an art in the use of words.

THE SHANTUNG QUESTION

Editor Journal: The opponents of the league of nations on the foreign relations committee of the senate have undertaken to hand back to China the concessions in Shantung which Japan early in the war seized from Germany.

Now Japan is in possession of these concessions. They can be handed back to China in only one of two ways: First, by the consent of Japan; second, by force, which means war with Japan.

The president followed the first course, by procuring the promise of Japan to evacuate Shantung and to disclaim territorial sovereignty there, which promise of Japan can be fulfilled by the operation of the league of nations covenant already signed up by Japan and thirty other nations. And, further, the league covenant obtains a promise of Japan and thirty other nations to “respect and preserve, as against

external aggression, the territorial integrity and political independence” of the member states, including China.

By this promise in the covenant China gets her rights back, and, in addition, full security for the future.

But these senatorial recalcitrants want to do it in their own way, and without Japan's consent, which means war with Japan.

These senatorial opponents of the league of nations have never forgiven the president for going to Paris to negotiate the treaty, leaving them at home, like Tam O'Shanter's wife, “nursing their wrath to keep it warm.” Instead of acting the part of grave and reverend senators, they seem to act like a lot of unruly school boys trying to put the teacher in a hole.

The league of nations puts Japan in a straight jacket. Japan has signed the league covenant. And, if the senate ratifies the treaty, Japan, the Prussia of the East, will be put on her good behavior, pledged to avoid “external aggression” against China or any other nation.

It is strange that those who prate of being for America first—“selfish Americanism”—and who seek, as they say, to “get things,” “unraveled in European affairs,” should be the very ones to stir up trouble with Japan over the rights of China.

Their perverseness can only be explained, or accounted for, by their desire to do things differently from the president.

I prophesy that they will either back up or they will—be backed down.

There are enough sensible Republicans in the senate to not only safeguard the rights of China, but to save the United States from possible war with Japan.

What Is Your Pet Economy?

There are scores of ways in which to beat the high cost of living. Every woman has one or more pet economies, especially since it has become so hard to make the income stretch over the necessities of life.

How do you outwit the H. C. L.? Do you bake your own bread and find it economical? Do you make over garments? Do you do something to make money in the hours you used to give to the Red Cross or other war work? Do you coax your garden into yielding a pretty fair share of the food for your table, both winter and summer?

What preparations are you making to combat shortages of food-stuffs and other necessities, and high prices, during the coming winter?

The Journal would like to hear from its readers, both town and country, on this subject. The letters should contain stories of personal experience or thoughtful suggestions for easing the burden on the pocketbook. Write anything up to 200 or 300 words.

STATE ROAD PLAN GIVEN IN OUTLINE

Route No. Ten to Run From Danville to This City.

Announcement of the routing of Bond Issue Route No. 10, from the Indiana-Illinois state line to Jacksonville, was recently made by the state department of public works and building, and the following appeared in the State Register: It was stipulated by the department, however, that the right of way must be secured without cost to the state, else the routing was subject to charges at various points by the department.

The following is the statement made by the department: “Having investigated all of the proposed locations for Bond Issue Route 10 between the east state line and Jacksonville and having held a final hearing, the department of public works and buildings announces a preference for the location described below. This location will be fixed as final for Route No. 10 between the points named, only on condition that the local interests arrange to furnish without cost to the state such additional right of way as may prove necessary in order that a road of ample width, easy turns, moderate grades and a minimum number of railroad grade crossings may be built.

Description of Route.
“Option and conveyance froms, descriptions and plats will be furnished by the department to those who undertake to secure the necessary right of way.

“Beginning at the intersection of the Indiana state line and the line to the east corporate limits to Danville; thence west to the west line of Vermillion county, following the general location of State Aid route No. 9, thence west to Urbana, then to a point north of Seymour, thence to Monticello, thence south to a point about two miles south of Beament, thence to Cerre Gordo, thence to Decatur, thence west from Decatur, following the general location of State Aid route No. 12 of Mason county to the Sangamon county line, avoiding, however, the double crossing of the Wabash and Illinois Traction company lines by keeping the road on the south side of the same to a point near Illinois in Sangamon county, thence west following the general location of State Aid route No. 3 of Sangamon county to a point near Dawson, thence following a new location from Dawson to Riverton which will avoid crossing the Wabash railroad twice, thence southwesterly to Springfield following the general location of State Aid routes 3 and 3-C in Sangamon county, thence west to Springfield following the general location of State Aid route No. 7 in Sangamon county and State Aid route No. 4 in Morgan county, through Curran, Bates, New Berlin, Alexander, Orleans and Arnold to Jacksonville.

It is understood that the above description covers the general location of Bond Issue route No. 10, but that the exact location of the road actually built may vary so that easy grades, moderate turns, and a minimum number of grade crossings will exist in the finally completed road. It is also understood that the general location of the route may be changed in case full co-operation is not secured in obtaining the right of way.

OLD TIME EXPRESS MAN VISITS CITY

Andrew Shields, Former Jacksonville Resident, Greets Friends Here Saturday.

Andrew Shields, a former resident of Jacksonville, was a visitor in the city Saturday, calling on old friends and renewing acquaintances. Mr. Shields has been in the express business practically all of his life. He is now on the pension list with the Wells Fargo company, or was until the government consolidation order went into effect, since which time he has been pensioned by the American Railway Express company. For over thirty years he traveled on an express car between St. Louis and Kansas City, and had the honor, many years ago, of being express messenger on the first express train out of Kansas City for St. Louis.

He was employed by an express company in this city back in the time when there were no paved streets in Jacksonville. “Jacksonville was a small place then,” said Mr. Shields, “and sometimes in bad weather you'd almost go to your knees in mud getting across the streets.”

Mr. Shields up to a few years ago owned property on South Main street and so has kept track of the city's growth and many improvements.

Social Events

Farewell Picnic for Mrs. Vasconcellos and Family.

A farewell picnic was given at Flynn's Grove, near Clements, Saturday in honor of Mrs. James Vasconcellos and children of Chicago, who have been visiting in Murrayville the past month. The day was spent in a very pleasant manner and at the noon hour a most bountiful picnic dinner was enjoyed. Those present were: Mr. and Mrs. J. W. Fanning, Mr. and Mrs. Warren Fanning and family, Mr. and Mrs. William White and family; Mr. and Mrs. Ernest Henry, Mr. and Mrs. Clyde Fanning; Mr. and Mrs. Joshua Vasconcellos of Jacksonville.

Mrs. Carter and Daughter Entertain for Miss Rogerson.

Mrs. Truman P. Carter and Miss Catherine Carter entertained a company of young ladies at the Carter home, 475 Lincoln avenue Saturday afternoon in honor of Miss Agnes Rogerson, who is to be married Sept. 3.

Twenty young ladies, intimate friends of Miss Rogerson, were the guests. The rooms were tastefully decorated with fall flowers.

A feature of the afternoon was the putting together of a cook book. Each guest brought a recipe and a menu. These were written and autographed by the guests and placed in a cover designed by Mrs. Carter.

Miss Louise Gates of Allentown, Pa., was an out of town guest.

During the afternoon the hostesses served dainty refreshments and the occasion proved one of the most enjoyable of the many pre-nuptial events given for Miss Rogerson.

Attended Family Reunion at Godfrey Thursday, Aug. 28th.

The annual Still family reunion was held Aug. 28th near Godfrey, Ill. Mrs. Albert Riggs of Murrayville, whose maiden name was Still, together with the following children attended: Mrs. Clifford Ketner and two children, of Murrayville; Mrs. Basil Kitner and three children of Jacksonville; Mr. and Mrs. Clinton Million and family, Mr. and Mrs. Walter Riggs and family of south of Murrayville; Mr. and Mrs. Carl Riggs of near Murrayville, and Mr. and Mrs. Herbert Riggs and family, of Ceres, being twenty-four in all. They went a distance of fifty four miles one way in the cars of Herbert and Walter Riggs and Clinton Million. The towns they passed thru were Athensville, Greenfield, Rockbridge, Medora, Piassa and Brighton. The trip was made without accident and the roads were fine all the way, finding no mud, tho it threatened rain all day. A sumptuous dinner was served to which over eighty four did ample justice. Having plenty of apples handy cider was made which all enjoyed. During the afternoon refreshments of ice cream and cake, and watermelons were served. All enjoyed themselves, the day being most pleasantly spent.

TOM MOORE IN NEW PICTURE

Tom Moore, the popular Goldwyn star, comes to the Rialto tomorrow and Tuesday in his newest photo-play "Heartsease," made from Chas. Klein's famous stage success. This is credited with being the best picture that Moore has ever made.

The story concerns the writer of an opera whose piece has been stolen. Later it is sung at the Metropolitan opera house where it is recognized by a friend of the author. It brings back to her all the memories, all the struggles, loves and disappointments of the man who wrote it. During the action of the play the great stage of the famous theatre is shown, and also a peep back of the scenes and into the dressing rooms. A wonderful romance is woven into the story one that will leave its impression on the spectator for a long time.

Getting the Young Man Fixed For College

The "preparation" influences his comfort-status and peace of mind for the entire year — therefore, do it right.

The young man leaving for college or university, his trunk filled with clothing that is right in every little detail, has a decided advantage over the one who is worrying about whether his clothes will be "just right."

Don't handicap him at the start. Send him away in the right frame of mind. It don't cost a cent more, and in the long run will cost less because tailored-to-order suits and overcoats last longer and look better while wearing. There's no doubt about it. Bring the young man in this week and let us fit him out "right."

M'KINLEY DISCUSSES PUBLIC QUESTIONS AT CHAUTAUQUA

Handles Present Day Problems in Clear, Concise and Informing Manner—Touches on Cost of Living, Railroad Problem, World War Cost, Mexican and the Yellow Peril.

Congressman W. B. McKinley told his audience that he was not an orator and he made no attempt at oratory in his very timely address. Nevertheless, the congressman told his auditors some very interesting things and handled public questions in a clear, convincing, concise and informing way. It is very safe to say that the people who heard this speaker Saturday afternoon learned a great deal more from his fair statements in an hour's time than they could acquire from many weeks' reading about these public questions.

Congressman McKinley began by local references to the fact that his parents were married here and that some of his early boyhood days were spent in Jacksonville. "I am going to talk for a little while about high living costs, a subject in which we are all interested in these days. I remember when I was a boy that if the family wanted codfish, a large fish was purchased from a bale of them at the family grocery and then hung away in the cellar to be used from time to time. Now if I want codfish for the family it is purchased in a one pound fancy bottle. At my home the other day I saw the cook opening what looked to me like a fancy box of chocolates. It proved to be bacon for the family breakfast.

Autos Instead of Horses.
"Ten or fifteen years ago a man of family tried to scrape together \$400 or \$500 to purchase a horse and phaeton for his family and thought that he was providing well for their pleasure and entertainment. Now I know a man who formerly had such an outfit, whose investments now for providing a similar pleasure to his family include a \$3,000 and a \$2,500 gas car.

"A few years ago if you were in Chicago it was a common practice for your friends to point out to you that this team or that team, driven by a wealthy packer, cost \$1,000. I have no doubt but that during this chautauqua there have been 1,000 automobiles on the grounds that have cost more than the \$1,000 figure. "You can put it down as a fact that if you produce less and consume more that the prices are going to remain high. As a member of congress I am on the agricultural committee and I will remember the first time that Herbert Hoover appeared before this committee to talk about the effect of food supply on the war. And, by the way, Hoover is a wonderful man and his life story shows what a poor American lad with ability and pluck can accomplish. He told us there must be more wheat and more fats raised for the people of Europe if the war was won by the allies, and then that the people at home must save.

"Again in 1918 he came before our committee and the statistics he had proved that instead of consuming less, after all the war saving propaganda, that the people of the U. S. had eaten 10 per cent more than they did the year before. The reason was that the American workman was receiving higher wages than ever before and with a greater amount of money was able to gratify his appetite in a way that was not possible before.

Foreign Wheat Demand.
"We used to export about 200,000,000 bushels of wheat and to consume about 600,000,000 bushels at home. Now there is a foreign demand for nearly 500,000,000 bushels because central Europe is not getting the shipments that used to come from Russia and Roumania, and which will not come until conditions there are settled.

"Some months ago with a party of five congressmen I took a 1,000 mile trip covering an eight day period thru France, Luxembourg and Belgium. On all that journey I did not see over 400 head of livestock, including hogs, sheep, steers, cows and horses. This gives some idea of the real shortage of livestock that exists in the overseas countries.

"Less hours of labor at higher wages inevitably means higher cost of products. Generally speaking, you cannot make the price of commodities lower merely by legislative acts. I am not here to defend anyone but in these days of criticism and the consideration of storage facts, you must remember that eggs constitute a seasonal product and that unless certain products are placed in storage, that at another time of the year the price for them would be almost prohibitive.

Taxes to Remain High.
"When you consider the financial statistics it is very clear that the taxes must remain high for some time. Before the war began it cost this government about a billion and a quarter for the general federal expenses. The war cost us \$32,000,000,000 and the annual interest on the war debt is about \$1,000,000,000. Before the war we were spending \$150,000,000 to \$175,000,000 annually for pensions and now the pension cost will be half a billion a year because the war cost us 100,000 lives and more than 300,000 soldiers were wounded.

TALKS OF PRESENT DAY PROBLEMS

Congressman William B. McKinley.

"In addition to paying the interest on the war debt we must pay off at least a small per cent of the principal and these figures that I have mentioned bring our annual expenses to the \$3,000,000,000 mark. Just how much we spend on the navy and army depends in large measure upon the advice that you give congress. It costs \$2,000 a year per man for the maintenance of navy or army, and the size of the army and navy to be maintained will be determined by congress with your advice.

The Railroad Problem.
"Then the question of the railroads is one in which the public must express its views. Last year the railroads collected a billion more than ever before in revenues, yet that was not sufficient to pay the cost of operation and the deficit had to be made up from the public treasury. This year the deficit will be even greater. The government some months ago was obligated for ships costing \$4,000,000,000. About 1,300 of these had been delivered and about 1,300 more are still to be delivered. These ships were built at a cost per ton three times the figure at which they could have been produced by England. Now the question is, shall we sell these ships at the loss which would inevitably follow, or shall we maintain and operate them at a loss?

"According to the LaFollette law a seaman is paid \$85 a month and works on an eight hour shift. This means a total cost of \$255 with board for three men. A Japanese seaman is paid \$15 a month and works on a twelve hour shift, which means \$30 a month and the cost of maintaining two men. If these ships are to remain in commerce they must haul goods in competition with the other navies, the rates must be as low and the shortage must be made up by this government.

Some Comparative Figures.
"Jumping from consideration of these particular statistics, it is interesting to note that Illinois pays 15 per cent of the federal taxes while 14 southern states pay but a total of 10 per cent. New York pays 25 per cent of the federal taxes and five great states of the union pay 65 per cent of all the federal taxes. It is a fact, too, that the north pays 90 per cent and the south 10 per cent of these same taxes.

"When you are dealing with figures and talking about the war having cost the U. S. \$32,000,000,000, this means that one-eighth of what you are worth was paid by you into this war cost. For the debt of \$32,000,000,000 has about that relationship to the total wealth of the U. S. This sum was paid in addition to the payment in blood to abolish that principle of the divine right of kings, and I believe that the money and life sacrifices were well paid. About 90 per cent of the wars of the past have resulted from that belief in the divine right of kings."

Peace Prospects.
Congressman McKinley next gave some consideration of peace conditions and while he made no direct reference to the proposed peace league, his own position is clear. "Peace conditions so far as the U. S. is concerned are different," he said, "than the conditions in other countries. The U. S. did not declare war on Germany in 1917 but instead the president asked the authority of congress to use the army of the country in abolishing the submarine menace. Two million of our troops went over seas and they did abolish that menace. "It has been provided that when Germany and three allies sign the peace terms that the war is over and that steps will be taken whether or not the U. S. is a signatory. President Wilson has referred to the U. S. as an associate in this war rather than an ally and such was our relationship. I am somewhat of an optimist and I have the feeling that the difficulties that have disturbed will later on be taken care of in a satisfactory way.

Make Mexico Behave.
"So far as this side of the Atlantic is concerned I believe that the U. S. should take the part of

a mandatory and see to it that the twenty-one republic in North and South America behave. We may occasionally be called on to spank them to make them be good, but that is our duty. We maintain troops in Haiti, Santo Domingo, Nicaragua and Panama for this very purpose. In my own view we might as well do a little of this 'mandatory' work in Mexico instead of maintaining 100,000 men along the border. "England is a powerful nation, the strongest in Europe, and really responsible for peace there. I cannot blame England for wanting to have the U. S. take part of the responsibility for policing Europe. I do not blame England for seeking to have 60,000 English troops withdrawn from Turkey as a protection to Armenia and their armed force supplanted with soldiers from the U. S. But as to our obligation to undertake this work, that is another matter.

"In these latter days we have heard a great deal about Shantung. I have had the opportunity of twice visiting that province in China. You might illustrate the matter by supposing that instead of Shantung the state of Illinois had been given to Japan. There is a great network of railroads in this state and those who pass from the eastern states to the west must go thru Illinois unless they take a round about route. There are but 5,000 miles of railroad in China and they center largely in the province of Shantung. To give the Japanese control of this province places them in control of the largest railroad mileage in China.

The Yellow Peril.
"Peking is a city of a million inhabitants and Hongkong has a population of 2,000,000. In going from one city to the other you pass thru this Shantung province. Placing Japan there gives her a strangle hold. Because of various events China has always felt friendly to the U. S. Before the peace conference began Chinese representatives who came to the U. S. intended to employ two Americans schooled in international law to represent them. The Chinese were told that there was no necessity for this action, that the U. S. would look after their rights. Our intentions were good but the men in our state department did not know that Great Britain and France had entered into a secret treaty with Japan. We may not be able to prevent this Japanese occupation of Shantung but we should not be a party to it.

"One of the worst things that could happen out of this war would be domination by Japan. China has a population which can afford 80,000,000 soldiers. The Chinese are not organizers. Japan is a military nation, the Japanese are organizers and one can readily see the danger there is to the world in Japanese domination of China. It will not come in my day but we should not be blind to the danger of Oriental domination.

LOCAL MEN WILL ENTER MERCANTILE BUSINESS

A. Vasconcellos and Oscar Ingram Will Take Over Property at Bolivia, Ill., Sept. 15th—Ralph Withee to Succeed Vasconcellos as General Manager at Cherry's.

A business change of more than usual importance and interest will be made within a few days when A. Vasconcellos of 618 Jordan street, manager of

Cherry's Livery company and Oscar Ingram, of Arnold, merchant of that place, and manager of the Arnold elevator, will form a partnership and go into the mercantile business at Bolivia, Ill. Ralph Withee of this city who has been associated with Mr. Cherry in the livery business and in paving work, will assume management of the livery business here.

Messrs. Vasconcellos and Ingram are prominent young business men of the type known as hustlers and there is no doubt but that they will make a success of their venture into the mercantile business. Bolivia is a small town in Christian county, located twenty miles from Springfield and twenty-four miles from Decatur. Thus it will be seen that they will have an excellent market for their produce in either direction. They will carry a complete line of groceries and a general and up-to-date stock of other lines such as a country store usually handles. They will carry auto tires and accessories and have a gasoline filling station in front of the store building.

The store was purchased recently from C. R. Ensminger of Bolivia. Mr. Ensminger has made a success of the business and wished to retire and let his son have the property to manage, but it is said the younger man is a successful automobile salesman, handling a number of different popular cars, and therefore does not care to devote a great deal of time to the store. For this reason the local men were fortunate in being able to purchase a going, and profitable business in the heart of a rich farming community. They expect to take charge of the store Sept. 15th.

Mr. Vasconcellos has been associated with Mr. Cherry for the past seventeen years, in fact, ever since he left Illinois college in his junior year there, and entered business life. After leaving school he entered Mr. Cherry's employ in connection with paving work for which Mr. Cherry

was the contractor. Later he went into the livery business and for many years has been general manager of Mr. Cherry's properties in Jacksonville. Mr. Vasconcellos paid high tribute to Mr. Cherry yesterday in talking with a reporter and said that he could not wish to have been employed by a better boss and that their relationship had always been the friendliest. It is with regret that he severs this long association.

Mr. Ingram has also been associated with Mr. Cherry and Mr. Vasconcellos in the livery business and for eight years worked with Mr. Vasconcellos. A year ago last February, however, Mr. Ingram took charge of the store at Arnold and has been the manager of the Arnold elevator for some time. He has made a success of the store there and also of the elevator property. The officers of the elevator company very much regret to see him leave.

While the many friends of Mr. and Mrs. Vasconcellos and Mr. and Mrs. Ingram will regret to see them leave Jacksonville and vicinity to make their homes elsewhere yet all sincerely wish them the best of success in the new enterprise which they are undertaking.

Ralph Withee, who will succeed Mr. Vasconcellos as general manager of the Cherry livery is not new to the business. He has long been associated with Mr. Cherry in a business way, both in paving contracting work and at the livery barn. He is one of the city's popular young business men and can be depended upon to handle the Cherry property in a satisfactory manner.

Your store will be closed all day Monday, Sept. 1st. JOHNSON, HACKETT & GUTHRIE

* CHAUTAUQUA NOTES *

Wendell Dugger of Scottville was a camp visitor Friday. John and Beryl Vasconcellos are visiting their grandmother, Mrs. Josephine Fouvea at her tent.

There is a fine neighborly regard among all the campers; they borrow and after the most approved style and have the best of times visiting and exchanging notes.

Mrs. Maggie Bussey visited at the tent of Mr. and Mrs. F. W. Schofield Friday.

Mr. and Mrs. Ralph Ford and children were guests at the tent of F. M. Masters Friday.

Leonard Brown of Augusta, Kansas, arrived on the grounds Friday. He was much pleased with the park and pronounced the chautauqua fine. He is a guest of F. M. Masters and family.

Miss Edna Davies who is tawing a course at the Presbyterian hospital nurses' training school in Chicago, is a visitor during her vacation, at the tent of F. M. Masters.

The Happy Hooligans came pretty early for breakfast and dinner in the stand the way the bill of fare disappeared showed that all had good appetites. They are proud of their cooking but don't care to follow it as a steady thing.

Julian Pyatt, Russell Deatherage and Misses Alberta Scarlett and Catherine Owen, all made a trip to Springfield Friday.

There has been very little illness on the grounds thus far, one little child of the Ford callers was ill a short time.

Misses Maude Brown, Marie Meggison and Velma Sevier took a spin to Scottville Friday.

Wendell Rugger of Scottville is a visitor coming in Mrs. Brown's car.

Mrs. Frank Green will have to go home to Strawn's Crossing today.

Miss Bertha Dunlap who has been a guest on the grounds has gone home to Peoria.

Miss Barbara of the Harry Hart family, went to Meredosia Friday.

Miss Sadie DePew was a caller at the Dallas Crain tent Friday.

Misses Ida Frances Bonansinga and Charline Ayers visited Miss Helen Pyatt Friday night.

Mrs. Kate Seymour of Franklin is a guest at the tent of N. M. Crain.

Mrs. M. M. Connolly of Murrayville arrived at the tent of her daughter, Miss Elizabeth Connolly Friday.

Edward Collins took supper at the tent of Miss Elizabeth Collins Friday evening and pronounced the bill of fare all right.

Miss Margaret Strandberg has gone to Quiver Lake to join the Clover Leaf campers.

Miss Serena Connolly will put into good use what she has gained at the chautauqua when she begins her school at Strawn's Grove Monday.

Miss Helen DeSilva has been obliged to leave the camp on account of the death of her grandfather, the late Joseph P. DeSilva.

Miss Ida Bell Gorman, who has been enjoying the camp life with friends will leave in a few days for her home in Indiana.

Henry Sandberg of Decatur is visiting his brother Harold.

Some disturbance was caused in the south part of the grounds early yesterday morning when some festive boys indulged in a shirt tail parade and waked things up for a while. They went into one tent and took out a clock which they placed on a bench but did no especial mischief.

The Skinner tent which was nearly overturned during the storm Thursday night was vacant. It will be occupied by the tenants today.

J. W. Moon of Keokuk, Iowa, is a guest at the Moca tent for a few days and is greatly enjoying the chautauqua.

Alpha and Dewey Meggison of Woodson are guests at R. C. Meggison's tent.

Miss Wanda Willett of Alexander will be a guest at Summer-Inn today.

Mrs. S. P. Carter made a short visit with town folks yesterday morning.

E. L. Eldridge and wife of Tallula are guests at tent No. 92.

Mrs. Nettie Ryther of Kirksville, Mo., is a guest on the grounds.

Miss Margaret Selby, who has been a guest at Welcome-Inn had to go home to Pekin to register for school, but was so pleased with the chautauqua that she came back again to enjoy the rest of the program.

Edward Leonard is visiting David Smith at the Smith tent, No. 75.

Bessie Rea of Murrayville is a guest with Mrs. Luella Henry, in Woodson tent.

Miss Olive Randall is a visitor at the Kirkpatrick tent.

An no time has a chautauqua been managed with so little apparent friction and dissatisfaction. Of course, some people would kick if they were to be hanged, but they are always with us. Greatest praise is due the managers of the enterprise and on every hand is the comment, best program yet.

Mr. Badger was a guest at the Crain tent Friday.

JACKSONVILLE IS PRAISED ABROAD

Bulletin of the National Tuberculosis Association Tells of Work in Crusader Tournament Last Winter.

Jacksonville stands high abroad as a city that has taken the lead in many things pertaining to public health work.

The city is known thruout the entire country for its activity in tuberculosis work and the erection of one of the first open air schools. Last winter in the Crusader campaign Jacksonville school children made a record that is well known.

The appended article is taken from the Bulletin of the National Tuberculosis Association:

Jacksonville, Ill., Enters the List.
The zeal with which the children of Jacksonville, Ill., entered the tournament under the leadership of Mrs. Elizabeth D. Leavitt, Crusader Executive for Morgan County, would have incurred the envy of Sir Lancelot himself. The joustings started off with a 100 per cent interest on the part of teachers and pupils, while health talks and newspaper reports kept alive the enthusiasm of the general public and daily printed lists of the children having the highest records spurred everyone on to still greater efforts. At the end of the seventh week, in order to create a further incentive, a city contest based on the number of chores performed per pupil per day was also inaugurated.

Perhaps the most useful and holding the interest of the children was a Story Number of the Wisconsin Crusader, which contained a number of charming stories and some good crusader songs. Mrs. Leavitt personally visited every grade school in Jacksonville and taught the songs to the children. Seven hundred copies of the magazine were sold at 5 cents each, and several songs were reprinted in the daily papers. Talks were given before the Council of Defense, Parent-Teachers Association, and in schools and churches did much to arouse the interest of parents and older children in the crusade. Health Promotion week, which came during the tournament, closed with a parade of crusaders.

The cost of supplies was met by the superintendent of schools who offered to pay for all supplies used by schools that were contributing members of the Junior Red Cross.

A record of nine classes with 100 per cent knight banneret as well as other high records was achieved as the result of the campaign.

GIVE OUT EMBLEMS

Captain Bush of Springfield arrived in Jacksonville yesterday morning and during the day distributed Victory Buttons to men entitled to them. It is estimated that nearly one hundred of the emblems were given out during the day by the officer. He stated that if anyone wishes buttons and cannot arrange to see him that the emblems will be mailed from Springfield.

Two silver emblems, to men who had been wounded, were given out during the afternoon, one to William Ross, Rural Route 5, Jacksonville, and one to Elmer Brannan, 236 East North street.

LARGE REGISTRATION AT BUSINESS COLLEGE

Close to One Hundred Students Enrolled for Course at Brown's School Starts Tuesday.

The back-to-school movement is manifesting itself quite perceptibly in the large registration for the fall opening of Brown's Business College. The principal, Mr. Mauck, reports a registration of close to a hundred students at present, and the indications are that half as many more will be on hand ready for work Tuesday morning when classes are formally begun. Tomorrow, while a holiday, will be a general enrollment day.

The school has also been designated by the United States government as a training school for disabled soldiers, and it is expected that it will have quite an enrollment from this source.

Many improvements and alterations have been made during the summer under the new management, and the school expects to accomplish more this year than ever before in training young people for successful business careers.

A Beautiful Field—
When planted with a Van Brunt Drill, a field of grain presents a pleasing sight to the eye during its growth because of the remarkably even stand. This is due to three qualities of Van Brunt seeding: First, uniform distribution of quantities from every feed; second, even flow of seed to avoid gaps in each furrow; third, planting and covering all seed at the same depth.

MRS. BULEY ALMOST GAVE UP IN DESPAIR

Canton Woman Had Suffered Twenty Years—Is Perfectly Well Now Since Taking Course of Tanlac.

"When my friends ask me what caused my wonderful improvement, I just say, 'Tanlac,' and they seem to understand," said Mrs. Burl Buley, residing at 521 Baxter Court, Canton, Illinois, while talking to a Tanlac representative the other day.

"For the past twenty years," continued Mrs. Buley, "I have suffered from acute indigestion, and when these spells came on me the pain and misery I underwent is simply more than anybody will ever know. My stomach was in such bad condition that the least thing I ate would cause me to suffer terribly afterwards. I finally got to where even a little milk and toast would cause me to have bad cramping spells, and gas would form so bad that I could hardly get a good breath. This condition kept up until I was so weak and run down that I was not able to attend to my house work. I had suffered a great deal from headaches, and sometimes I would have such bad spells of it that it just seemed that my head was going to burst. I was so nervous all the time that the least little thing would upset me, and I never knew what a good night's sleep was. Nothing I took in the way of medicine and treatment seemed to do me any good at all, and I had just about given up all hope of ever being well again."

"Well, the papers were having a great deal to say about Tanlac, and so many people were being benefited by using it, so I got my husband to get a bottle of it for me. The day that I commenced taking Tanlac certainly marks the turning point for me, for I began to improve before I had finished my first bottle of this wonderful medicine. Why, in little or no time I could eat anything I wanted without suffering afterwards, and I just continued to improve until my twenty years of suffering is completely at an end. I eat things now that I haven't dared touch for years. Those awful headaches have left me, too, and I never have a sign of acute indigestion. In fact, I am perfectly well in every way, and when night comes now, I sleep like a baby for eight or nine hours. I tell everybody I meet about Tanlac, for I know it is solely responsible for the good health I now enjoy."

Tanlac is sold in Jacksonville by Coover & Shreve; in Meredosia by Mr. R. B. Field; in Murrayville by Mr. E. Gilbert; in Waverly by The Wyle Drug Co., and in Woodstock by The Hoy Pharmacy.—Adv.

The Washer

That Takes the Wash Out of Washing

The Only Low Price
Practical Washing Machine

Why You Should Use a National Vacuum Washer
BECAUSE: It washes much quicker, does it much cleaner and with a great deal less work to the operator.

Why Does it Wash Quicker
BECAUSE: the rapid action of the dasher driving the hot water and suds through the solid clothes forces the dirt out. The agitation of the hot water makes the dirt respond immediately. Two to six minutes will remove the dirt from any fabric that can be cleaned with soap and water.

In order to fully appreciate the real value of THE NATIONAL VACUUM WASHER, YOU MUST GIVE IT A TRIAL.

Why Does it Wash Cleaner
BECAUSE: by the vacuum principle the dirt is all forced OUT instead of rubbing part of it into the fabric.

Why with Less Work to the Operator
BECAUSE: by the vacuum principle it requires only power to handle the water, not the clothes. This eliminates the wear on the fabric and makes the machine run much easier.

Matrimonial

Goveia-Brennan.
Gus Goveia and Miss Mary Brennan, both of this city, were united in marriage Saturday afternoon by the Rev. French of Virginia, Ill. Mr. Goveia is the son of Mr. and Mrs. August Goveia of North Prairie street.

Mrs. Goveia is the daughter of John J. Brennan of South West street. Both Mr. and Mrs. Goveia are well known in this city, and have a large circle of friends who will wish them much happiness in their new, married life. They will begin housekeeping in a home furnished by the groom.

Jennings-McCarthy.
Reaugh Jennings of Murrayville, and Miss Malinda A. McCarthy of this city were united in marriage Saturday afternoon at 2:30 o'clock. The ceremony was said at Centenary church parsonage by the Rev. W. R. Leslie, the single ring service being used. They were attended by Misses Abigail Eddings and Frances Needham and Paul R. Joaquin and Edgar J. McGinnis.

The bride is the daughter of Mr. and Mrs. J. O. McCarthy of this city. She has been in training for a nurse at Passavant hospital. She is a young woman of charming disposition and has a host of friends in the city.

The groom is the son of Mr. and Mrs. Monroe Jennings of Murrayville. He enlisted, when

this country declared war, in the engineering service and was overseas many months. He was with Earl Sooy who was lost in action. Mr. Jennings was wounded in action and was in a hospital in France for several months. He taught school before the war and has again taken up that occupation and will be in charge of the Literberry school the coming year.

Both bride and groom have many friends in the city and county who will unite in wishing them many years of happiness.

Nergenan-Plank.
Alpha Earl Nergenan of Chapin and Miss Ethel Plank of Joy Prairie were married at 8 o'clock Thursday at the bride's home. Rev. Thomas Symond, pastor of the Methodist church at Concord, officiating. The ceremony was performed in the presence of immediate relatives and friends of the two families.

The bride was attired in a gown of pearl georgette crepe, over satin. She carried a bouquet of white bride's roses and ferns. The bridesmaids were Miss Lola Baker of Versailles and Miss Mary Parlier of Arenzville. They were gowned in liberty blue satin, and carried pink roses. The groom's men were Ruel Parlier and Earl Pilger.

Miss Plank is the daughter of Mr. and Mrs. Elmer Plank. She is a young woman of great personal charm and has the esteem of a large circle of friends. The bride is a talented musician and is a member of the Concord Methodist church.

The groom is the son of Mr. and Mrs. William Nergenan of Chapin and has been engaged in farming for some time. He is a member of the Lutheran church of Chapin.

The young people will have the best wishes of many friends. They will be at home after September 20th, on a farm near Chapin.

Sevier-Brown.

Vol Sevier and Miss Maude Brown, both of this city, were united in marriage at 3:15 o'clock Saturday afternoon by Dr. G. W. Miller at his home in Woodson. The ceremony was witnessed by relatives and a few intimate friends of the contracting parties.

The bride is the daughter of Mrs. C. L. Brown of 625 East State street and has spent her entire life in this city. She graduated from the Jacksonville high school in the class of 1915. For some time she has been engaged in teaching in the Franklin school. She is a young woman whose many womanly graces have won for her a large circle of friends. These will unite in wishing her many years of wedded happiness.

The groom is proprietor of the Drexel barber shop and has won a high place in the business circles of Jacksonville. He was in the army service during the war and his army record was of the best.

Mr. and Mrs. Sevier departed immediately after the ceremony for a wedding trip of ten days, after which they will reside in this city.

Tarbox-Garrison.
The following from the Friday's Decatur Herald tells of the wedding of a former Jacksonville girl.

The marriage of Miss Madeline Louise Garrison and Robin James Tarbox was solemnized Wednesday at noon in the bride's home.

Dr. M. P. Wilkin of Urbana, performed the ceremony.

The couple stood before an altar of ferns and pink and white flowers in the living room in the Garrison home. Before the ceremony Miss Ruth Royce sang "Because," accompanied by Miss Mildred Applebee of Jacksonville. Miss Applebee played the wedding march from Mendelssohn.

Miss Audrey Garrison, sister of the bride, was maid of honor. Little Margaret Emelyne Trone and Rudolph Corman were flower girl and ring bearer. Wesley Wagner of Urbana acted as best man.

The bride's gown was of white chiffon over white satin trimmed in seed pearls. She wore a full length tulle veil and carried bride's roses. The maid of honor was attired in flesh colored georgette with silver lace. Little Miss Trone wore dainty white organ-die with lace. Master Corman was attired in white linen.

On Wedding Trip.
Following the ceremony a wedding breakfast was served. Later Mr. and Mrs. Tarbox left for Chicago, Detroit and the Great Lakes for a two weeks' trip before going to their home in South Bend, Ind., where Mr. Tarbox has recently bought a large stock farm.

The bride is the youngest daughter of Mr. and Mrs. H. E. Garrison. She attended the Illinois Woman's College and Millikin University. She is an accomplished musician.

Mr. Tarbox received his B. S. degree in the University of Illinois last June.

The out of town guests were: Mr. and Mrs. F. C. Gorman and sons of Macomb; Miss Anna Trimble of Rushville; Mr. and Mrs. Clarence Garrison and family of Rushville; Mrs. Libbie Failor of Houston, Tex.; Miss Mildred Applebee of Jacksonville; Miss Ruby Forrest and Wesley Wagner of Urbana.

For Rent: Nicely furnished flat, 3 rooms and bath, every modern convenience. Call Monday at The Johnston Agency.

Local Branch No. 158 Held Meeting Yesterday and Discussed Plans—Twelve Candidates Initiated.

The annual meeting of the State Anti-Horse Thief association will be held in this city Wednesday, Oct. 15.

At the regular meeting of Local Branch No. 158 held at the court house Saturday afternoon plans for entertaining and other matters pertaining to the meeting were discussed.

A committee consisting of P. J. White, Charles S. Black and John K. Long has been appointed by the state president on general arrangements. This committee was empowered to name such other committees as it deemed necessary to select a meeting place and plan for entertainment.

The session will bring nearly 300 delegates to the city from all parts of the state. Local men will prepare to give the visitors entertainment that will uphold the reputation of Jacksonville for always making visitors feel at home and send them away feeling that we were glad to have them with us.

Twelve candidates were initiated into the order at the meeting Saturday and twelve applications were received for admission. The order is growing rapidly and it is expected that a large number of new members will be added before the state meeting.

HOME COMING AT MANCHESTER SUCCESS

Over Forty World War and Civil War Veterans Honored Other News of Manchester and Vicinity.

Manchester, Aug. 29.—The homecoming was in every feature a success Thursday. At the noon hour there were over forty world war soldiers and the civil war veterans served at the most beautifully decorated tables, with everything good to eat. In the afternoon a very effective program was rendered. A ball game was one of the important features for the afternoon. In the evening Rev. Pontius delivered a very interesting address. We feel that the best isn't too good for those who made our land safe for democracy and Manchester feels very fortunate with thirty-eight stars on the service flag with only one turned to gold. Maurice Peters, son of Rev. and Mrs. F. T. Peters, was accidentally killed at Southern field, Ga., while in camp there.

News Notes.
The open air children returned to their home in Chicago Friday morning.

Miss Mary Linn of Carrollton is spending the week end with Katherine Hayes.

Dr. and Mrs. Wies are entertaining their children and families for the week including Mr. and Mrs. J. S. Wies of Mattoon, Mrs. J. Drennan of Detroit, Mich.; F. L. Wies a nd wife of Alton, Mrs. Carnille of Cerro Gordo, Ill. and Mrs. F. Heaton of Chicago.

Lester Clark of Princeton, Kans. is visiting his grandfather, F. Clark and other relatives. He was only recently discharged from the army.

Mr. and Mrs. Chas. Lietzle of Chapin are spending a week with the latter's parents, Mr. and Mrs. J. R. Blevins.

MR. PONTIUS KNOWS CHAUTAUQUA SPEAKERS

Local Minister Recommends Program for Today.

Rev. M. L. Pontius yesterday wrote the following open letter in commendation of Ivan Rossiter and Rev. Merl Stevens who are to appear at the chautauqua today:

I want to urge the people of Jacksonville and Morgan county to attend the Jacksonville chautauqua on Sunday afternoon and evening. Ivan Rossiter who speaks in the afternoon and evening is a Canadian soldier who saw several years of service in France and who distinguished himself by many acts of bravery. He was captured by the Germans and held for twelve months, during that time he was in nine different prison camps and hospitals. He has a most wonderful message for you. During the Fourth Liberty loan campaign Mr. Rossiter was on the train. I managed and I had the privilege of becoming well acquainted with him and introduced him to thousands of people during that time. They were never disappointed with his message. He is a refined Christian gentleman and I trust the people of Jacksonville and vicinity will come to hear his most excellent message on Sunday afternoon.

Rev. Merl Stevens is from Peoria. I was associated with him for several years as pastor of one of the Peoria churches. He is a man with a timely message. He has been in Peoria for many years and is universally respected and loved because of his sterling Christian character and his ability as a speaker. He will have a wonderful message for you. His address will be a fitting close to the great chautauqu.

The Genuine Pullman

The Perfect Bed Davenport

The PULLMAN is the one bed davenport that does not show by its outward appearance that it contains a bed. But it does contain a bed—and a most comfortable one.

A beautiful piece of furniture for the living room during the day; a splendid bed by night—a double service. You will like the PULLMAN—in fact, we do not think you would own any other if you investigated.

With a PULLMAN bed davenport (if you get the genuine), you can not only have an extra guest room, but a delightfully pleasing, handsome and aristocratic Davenport in your living room that will "stand out" among your furnishings as one of the finest and handsomest pieces in your house.

No trouble at all to show you the genuine PULLMAN. PULLMANS are sold at prices to fit any purse.

MRS. COHICK WILL HEAD SOCIAL SERVICE LEAGUE

Has Been Prominent in Club Work in St. Louis—Will Be Here Sept. 1 to Take Up Work.

The board of directors of the Social Service league have selected Mrs. Viola A. Cohick of St. Louis, Mo., as superintendent of the league and she will take up her duties on Sept. 1. She replaces Miss Dorothy Dorsey who recently resigned.

Mrs. Cohick is a woman of superior education and training in the social service field and it is felt that she will make the work of the league extremely effective. She received her education in the city of St. Louis, the Cape Girardeau Normal school; is a graduate of the St. Louis College of Law, and also a graduate from the Missouri School of Social Economics, which is conducted by the University of Missouri at St. Louis.

Mrs. Cohick has been actively interested in public work for a good many years. A few years ago she was chairman of the Women's Federated Clubs of St. Louis, at which time she attracted a great deal of attention by her plans for the beautification of vacant lots, streets, parks, etc., and the placing of benches for the convenience of foot travelers. For several years she was a teacher and recently has been engaged in the social service work in the city of St. Louis.

Mrs. Cohick comes to Jacksonville specially well recommended by the heads of the schools where she has received her training, as well as those who have been associated with her in active social work.

GRIGGSVILLE

Griggsville, Ill., Aug. 28.—Rev. and Mrs. E. K. Masterson and daughter Grace of Normal, accompanied by a friend of Mrs. Masterson, spent Thursday with Mrs. A. E. Shoemaker. The party was traveling by auto and was just returning from a trip to Pasadena, Calif.

WHAT DO YOU DO TO BEAT THE H. C. L.

Editor Journal: The high cost of living is not wholly the result of the high prices. Wastefulness is to blame for about 50 per cent of it. There is a great howl about the price of meat. Did you know first-class minced ham can be bought at 30 cents per pound? Ask your butcher. We have heard a great deal about the extortionate prices for shoes. I am wearing a pair of low shoes for the third summer. How do I do it? Use a good shoe dressing, which preserves the leather, keeps the heels straight and have the soles renewed before they are too far gone to make renewing a good investment. The same may be said of regular shoes. I will not wear out a pair of shoes a year. As for clothing, nothing so reduces the cost of clothing so as to buy high-grade goods and then keep them pressed and cleaned. Patronize the presser and dry cleaner regularly and your clothes will last so long you can have no kick coming on the price. I am wearing my "Sunday suit" for the fourth season, and it looks a whole lot better than some of the "cheap" suits, which really are too cheap. But if you get a "cheap" suit spend a few cents every two or three months in having it cleaned and pressed, and you will have no kick coming on the high prices. A good hat can be cleaned and blocked and made to last for several years. A whole lot of this high cost agitation is the result of lack of care on the part of purchasers. A little thoughtfulness will put the profiteers out of business without any fuss. Try it.

ECONOMIST.

Not What You Buy But Don't Buy Lowers H. C. L.

Mrs. Jean Prescott Adams, home economics director for a large corporation, lecturer, and writer, has the following pertinent remarks to make concerning the present situation:

"We hear of nothing but prices but common sense should teach any one that it is not the price, but its relation to our income and to the purchasing power of the dollar that we must consider. Think of high wages nowadays! Our grandmothers well knew that the price of commodities did not necessarily set the cost of living. They produced, grew, manufactured, the goods and wearing apparel on their own farms, and then their own industry; but when prices for certain bought articles were high, they did without them! Such a simple solution never occurs to us moderns. If we want hothouse tomatoes, or any fruits or luxuries out of season, we are not to buy them at any price, and then rail at prices.

"You see, many of us know so little of real values, or of alternatives. A few trained domestic science women know of less ex-

pensive substitutes for expensive olive oil, whose nutritive value is fully as high; but do we all buy peanut butter and vegetable oils, when told of the economy? We do not. Apparently, we have lost sight of the fact that man eats to live, not lives to eat; else when we find a substitute that is cheap and nutritious we would eagerly buy it and nourish our body rather than pay fancy prices to please our palate.

"What were once luxuries are now regarded as rock-bottom necessities. And a variety of luxuries has sprung up which every girl from the most poorly paid workman to a foolish snobbery which causes all strata of society to strive madly to imitate in dress and style of living the layer above, saps our national life.

"Foreign housewives are shocked at our extravagance and waste in our kitchens. The French woman takes her little market basket and starts out early, cutting out the overhead expenses of long distance delivery, and selecting the vegetables in the freshness of the morning. They buy a soup-bone or a few bits of the cheap cuts of meat and a careful variety of fresh vegetables for her ragout. Delicious seasoning tempts the palate and costs nothing. The family eats greedily, and the budget is maintained at a low figure.

"But is it possible in this industrial age, and in the complication of modern cities, to reduce life to the least common denominator and go back to 'simple living?' we ventured.

"Not in all respects, perhaps, but we can speedily reduce the price of some things, by using intelligence. During the war, people practically were commanded to refrain from this food or that, or to carry home their own packages to eliminate delivery. It was generally recognized that, by co-operating cheerfully and wisely, a tremendous saving in money would result.

"Now why cannot consumers everywhere cooperate in peace times? Why cannot housekeepers imitate these homely virtues of economy so universal in their grandmothers' day, and the thrift and wisdom in purchasing food supplies, which is exercised by foreign women, whose purchases are regulated by their incomes and not by false standards set by their neighbors? Health of the family and efficiency for work depend on the food consumed and its proper preparations. 'High standards' do not imply mushrooms and pate de foie gras, but wholesome, nourishing, well-cooked foods. In other words, the individual cost of living depends on the individual standards, and the highest standard is that which returns the greatest efficiency, mental and physical development, for the money expended.

THE FUTURE OF PAPER.

The dwindling supply of timber from which print paper pulp may be manufactured has become a matter of grave apprehension by newspapers. The increasing cost of print paper is the cause of many nightmares to business managers and publishers. The public is little interested in the cost of production of the daily paper. It expects to buy its copy at a nickel and to pay the same subscription rate it did years ago, while the increase in the price of print paper, if there were no other increases in the cost of production would justify the doubling of the price to the readers.

There is little hope of relief from high cost of print pulp and paper, but there is a possibility that new resources of pulp timber may be developed, if the manufacturers will give it attention. For years the supply of pulp timber has come from the east and the northern portion of the middle west. New York state has supplied about half the production of the whole country. As the eastern and northern forests became depleted, the Canadian forests were drawn upon. American pulp mills were moved to Canada and for a time it seemed that the supply would be adequate for the needs. But the Canadian supply is failing, the British demand during the war taking up a large percentage of the whole output.

Only two natural supplies remain to this country. One is found in the great forest areas of the northwestern states, including Washington, Oregon, Idaho, part of California and western Montana. The other is found in the almost limitless timber regions of Alaska. Neither of these sources has been more tapped. Only a few pulp mills are located in the northwest and none are found in Alaska. The supplies of raw material from these two areas would meet the consumption demand for print paper for a few years, but the entire supply would be consumed in time. Then recourse must be had to other methods. Some substitute for wood pulp must be found or reforestation must be systematically developed. The latter plan is the most feasible, because so far no real substitute for wood in at hand, and the cultivation of one should be found, would be more expensive than reforestation.

People who have seen the rapidity with which eastern lands once under cultivation return to forest conditions when cultivation ceases, readily understand the possibilities of reforestation of denuded pulp producing timber regions. A common sight on the old farms of the east is the distinct outlines of the corn rows and even of the corn hills in woods containing trees six and eight inches in diameter. These trees are not planted, but are the result of nature's seeding process. The growth of the timber is rapid, the

sunlight stimulating the young trees which in the natural woods would be smothered and checked in their growth.

If nature is allowed to restore the timber on the areas deforested, it would require but a few years to produce, without the efforts of man, a supply of pulp timber which would meet the future demands. How much this supply could be increased by proper seeding and artificial stimulation is unknown. But it would add materially to the growth of the young timber. The reforestation would have to be scientifically carried on, much like crop rotation. On section would have to be demanded and replanted while other sections remained untouched. Control of the operations would have to be placed in the government so that destruction would not be encouraged by monopoly. It looks as tho this is the only solution, not only of the pulp question, but of the lumber question of the future.

PA EXPLAINS

From Birmingham Age-Herald. "What's meant by 'crocodile tears,' pa?" asked little Tommy Dubwaite.

"It's like this, my son" answered Mr. Dubwaite. "You know Mr. Jibway, next door?"

"Yes, pa."

"Well, Mr. Jibway has about one hundred ragtime records he's always playing. You know that, too. Now suppose little Bobby Jibway should take a hammer and smashed every one of those records and I heard about it, and went over to Mr. Jibway's house and took him by the hand and wept for his misfortune. Wonderfully Efficient— Surprisingly Low in Price

not an electric

No Wires - No Plugs - No Bother

Sweep with all the ease of running an ordinary carpet sweeper but with the suction-lift of electric cleaners.

The Vacuette makes a thorough cleaning every day an actual possibility because it's so easy to use and so efficient in collecting dust, dirt, thread, lint, hairs, pins, and ravelings.

You just grasp the handle and go to work without bothering with entangling, troublesome wires. The 13-in. wide light-speed revolving bristle brush loosens every particle of dust and grit, while the high-speed suction fan pulls the sweepings up into the dust-bag safely away from accidental spilling.

The light weight of the aluminum housing and simple mechanism, (6½ lbs.) makes it so convenient to operate and carry that a child can use it.

LOCAL NAVY BOY VISITS BATTLE FRONTS

Orien T. Wright Spends Four Days' Leave With Comrades in Paris and on Battlefields.

Mrs. Lizzie B. Wright of 349 East Morgan street, has received the following letter from her son, Orien T. Wright who is in the United States navy on board the U. S. S. Arizona.

Mr. Wright's letter is of general interest and is given herewith:

U. S. S. Arizona.

c/o Postmaster, New York.

Aug. 12, 1919.

St. Nazaire, France.

Dear Mother and Father:

I expect you think I have forgotten home again. But I haven't. After I tell you what has happened. I have just got back from a four day furlough to Paris and my train fare was paid by the canteen fund of our ship. This trip was very interesting.

I was out on the battle front. I was out to Chateau-Thierry, and from there we got trucks and went out to Belleau Woods. This was the place where the boys turned the tide of this war. This woods was on a big hill, so the boys had a hard place to fight. I was up on this hill and seen a few bones of Germans. In all the shell holes there were Germans buried or just a little dirt thrown over them. So if you would kick around a little you could possibly find a few bones. Of course there have been so many sight seers over this ground, that the bones have nearly all been taken for souvenirs. At the foot of Belleau hill there is an American cemetery which has two thousand, five hundred bodies in it, of which about one hundred and fifty are unknown.

This cemetery was beautiful; each grave being marked by a cross and in the middle of the cemetery was the U. S. flag. I was also around Hill 204, and I crossed the Marne river. This sector was where the boys fought. I was up to Rheims. This place before the war had 150,000 population, it has 40,000 left. This place was completely torn up. There being just 13 houses left untouched. On last October, just before the Germans started their retreat they fired 65,000 shells into Rheims. You will notice that I spell Rheims into two ways. The last way was American. The other (Reims) is French. The Rheims Cathedral was also shot up bad, was in it. I have post cards of nearly all I have seen. I took a truck from Rheims to the battle front.

This front had no Americans on it, just French and Germans. I was out in the trenches on the German line. I was also down in a German dugout. I sure wanted to pick up some shells, but was not permitted to. I also got into a German tank, which was very interesting. I was out all one day on the battle lines. I spent most of my time on German lines. I also spent one half day in Versailles, going thru the palace. I also seen, and was in the room where the "Peace Treaty" was signed. I sure enjoyed myself for four days. I forgot to tell you about going up in the Eiffel Tower which is a thousand feet high. I went up 930 feet in this tower. I also seen the church where the

bursements, including funds at offices of department directors and camps and hospitals to meet the hourly needs of operations, amounted to \$908,616.48.

For their overseas work the Knights in the year ending June 30, spent \$9,550,082.62. Of this amount \$50,294.41 was spent on building and equipment; \$623,700.01 on personal expenses; \$438,438.19 on athletics, social and moving picture entertainments, etc.; \$110,032.83 for motor transport service; \$4,502,382.05 for supplies for free distribution; \$166,933.31 for freight and insurance; \$89,253.51 for general administration and \$3,508,443.30 for disbursements to overseas commissioners for expenditure on operations.

Overseas the Knights maintained 125 huts and clubs of substantial size, while other more or less ephemeral clubs were equipped and maintained to bring the total number of K. C. points of contact with the troops to 250. Of these clubs, 32 were in Germany, 4 in Italy and 9 in the British Isles, with one recently opened in Antwerp. In Siberia the K. C. have a secretary and more men are enroute. The Knights have also recently opened clubs in Panama, Hawaii, Alaska and clubs have been operated in Cuba and Porto Rico and large quantities of goods shipped to Haiti. All this latter work is now included in the domestic department.

The Knights sent 1,075 workers overseas out of a total number of 7,414 applicants. New York state led with 222, Massachusetts supplied 116, Illinois 93, Pennsylvania 61, Connecticut 49, Indiana 38. Every state in the union was represented in the overseas ranks of the K. C.

The total amount expended by the Knights on free creature comforts during the year was within a few dollars of \$7,000,000, an amount greater than spent for a similar purpose by all the other organizations participating in the United War Work Fund combined. This includes the comforts distributed on transports by the 108 K. C. secretaries engaged in transport work. This sum represents goods purchased in this country. Overseas the supplies for free distribution included in the list are 900,000,000 beef cubes, 618,000,000 cigarettes, 375,000 pipes 546,851 pounds of pipe tobacco, 3,000,000 pounds of candy.

For collection, care and general administration of their funds the Knights spent \$166,616.76, 2.63% of the entire disbursements, a sum exceeded by the total discounts accruing from prompt payment of merchandise bills. The money expended during the year by the Knights from their pre-war fund, distinct from the United Fund, was distributed thru the different avenues of expenditure in a proportion generally relative to their disbursements of money received on their quota in the United Fund. In including, their report the Knights state that they will continue, without charge, their work for the temporal and spiritual welfare of all men in the nation's service.

Summary of Expenditures During the twelve months ended June 30, 1919, the K. C. have spent on war relief work \$16,794,552.41

For work in the U. S. the K. C. spent 5,468,060.79

For work overseas the K. C. spent 9,550,082.62

On free creature comforts the K. C. spent 7,000,000.00

(More than all other organizations participating in United War Work Fund combined.)

For administrative purposes, collection, care and distribution of funds the K. C. spent 166,616.76

KNIGHTS OF COLUMBUS GIVE ACCOUNTING

Organization Tells How Money Given for War Work Was Spent.

In the report of the war relief activities of the Knights of Columbus for the year ending June 30, 1919, the supreme board of directors of the organization show how the K. C. have disposed of the \$17,000,000 received by them up to that date from the United War Fund of \$170,500,000, their quota of which was \$25,000,000.

In this report the Knights also give an accounting for \$1,776,409.00 of their pre-war fund, collected by the K. C. independently of and previous to the united drive of November, 1918.

The exact total received from the United War Drive Fund to June 30, of this year, was \$17,130,294.87, including salvage items and miscellaneous refunds. The disbursements from this fund were, for activities in the United States, \$5,468,060.79, and for activities overseas, \$9,550,082.62, a total of \$15,018,143.41, leaving an unexpended balance on June 30 of \$2,112,151.46.

The monthly expenditure on war work approximates two million dollars, so that this balance has since been expended, and fresh requisitions made on the fund, which has been totally collected by the United War Fund treasurers.

The \$5,468,060.79 expended for activities in the United States is apportioned among the following sub-divisions: Building program, including new construction and additions, rentals, operation and maintenance and equipment, \$1,302,022.85. The Knights had 178 buildings and 14 tents in the eastern-northwestern department, 89 buildings and 5 tents in the southeastern department, 152 buildings and 7 tents in the central-southern department and 42 buildings and 6 tents in the western department; making a total of 461 buildings and 32 tents. Eleven buildings were being constructed at permanent army posts, on June 30.

Personal expenses, including salaries, traveling expenses, uniforms and other personal equipment, but excluding headquarters' staff, cost the Knights \$1,046,600.11, for a total personnel of 1,134. Activities or service program, including athletic and sports, motion pictures and other entertainments, educational, social and employment service, cost \$745,659.00.

Motor transport service cost \$170,244.00. On supplies for free distribution including stationery, periodicals, tobacco, food and candy and miscellaneous supplies, such as soap, shaving materials, etc., the Knights spent \$1,063,368.63. Freight and insurance cost the Knights \$92,411.53, and general administration, \$128,058.18; this item covered salaries and expenses of headquarters' staff, publicity, and rents and office supplies and incidental expenses. Other dis-

bursements, including funds at offices of department directors and camps and hospitals to meet the hourly needs of operations, amounted to \$908,616.48.

3,000 PERSONS USED IN JESS WILLARD PLAY

An exact replica of the principal streets of Juarez, one of the oldest towns in Mexico, was built for use in "The Challenge of Chance," the new super-photoplay starring Jess Willard, which will be seen here next Thursday at Luttrell's theatre. This village was not only built, but, in three days time, a record breaker for the films, was completely destroyed by the raids from Villa and his Mexicans who figure greatly in the story of the play.

Nothing is forgotten from the low roofed adobe huts, the Spanish plaster and tile of those of the better class, to the quaint old church. The street was reproduced with a fidelity seldom attempted. Every feature in the original was retained, even to the exact lettering on the signs and the original names on the stores.

Director Harry Revier and Roy Somerville, author of the piece, together with a company which numbers close to three thousand "extras," filmed all the scenes for this spectacular production just outside of Los Angeles. Arline Pretty is playing the leading feminine role, opposite Jess Willard, and the exceptional supporting cast includes Al Hart, Harry Van Meter and Lee Hill.

DAY OF SIMPLE LIFE PAST

Village Smith and City Worker Have Been Transformed.

From the Detroit News:

"I had far rather be a blacksmith in a small village, at a third the wages received by your automobile worker, but sitting on my anvil, chatting and joking with my friends and patrons."

Thus speaks Prof. August Lund of the University of Pekin, China, criticizing the spirit of American industrialism.

The village blacksmith who used to sit on his anvil and chat and joke is out of a job. His patrons whirl up to his door in a cloud of dust demanding, "Yank that tire off the back there and fix 'er up; we've got to make 100 miles before lunch" and the old man sitting on his anvil watches his son and the garage helpers turn the trick to satisfy the trade.

The transition from the new to the old has brought about fundamental changes in the status and the point of view of the American worker, but the result was not thrust upon him against his will. What he got he deliberately chose and sought because he was dissatisfied with what he had. He had the simple life in which he mixed his labor and his social enjoyment through a sixteen or eighteen hour day and went to bed credited with a few shillings. He learned that he worked too long, was paid too little and was too much restricted in his social advantages, and he went out to change these conditions. He is at it yet.

He will never go back to sitting on the anvil and whiling away the long hours with conversation and jest. He no longer looks for his social pleasure during working hours because the type of social intercourse he has learned to prize is different.

He desires to meet his fellows not as a blacksmith or automobile worker or street cleaner, but as a man, cleaned up, dressed up and indistinguishable by his garb and manners from his fellows without regard to occupation. He values the leisure and the means to do these things and the liberty to choose his methods. In a word he has separated his social from his industrial activities.

The professor's decision, therefore, that the American workman lacks a sense of humor because he does not chat and joke at his work is superficial. The worker prefers a briefer day of intensive labor with high production and corresponding wages. The shortened work day and the increased compensation give him opportunity to seek the diversion he desires. Had the professor followed the workers from their shop to their places of amusement he would have heard them laugh and chat, but he would not have recognized them as workers; he would have seen in them only American citizens. This is the meaning of the transition from the simple life of the village blacksmith to the complex existence of the modern city worker.

DEMAND SILK SHIRTS

Sudden Craze for Costly Goods Sweeps Country.

Development of a nation-wide craze for luxuries is reflected in the phenomenal demand for silk shirts that has swept thru the country this summer. Merchants and manufacturers declare it is typical of the desire for spending money that has seized the people of the United States, especially the laboring classes.

This new craze is not confined to any particular locality but is general throughout the United States. Men who have never before worn silk shirts are buying them this season, not only one or two at a time, but in half-dozen lots, and the consumption has been so great that the market is short of stock.

A silk manufacturer of New York is quoted as saying: "This sudden craze for silk shirts is due to the fact that workingmen are making vastly more money than ever before. War time wages filled the pockets of workers in the big munition centers, shipyards and like places. These men have been enabled to realize some of their long cherished desires, one of which was to wear silk shirts. Now they are buying them in a way that heretofore seemed the privilege of the wealthy class only."

"Men who a few years ago complained because they could not get a cotton shirt for less than a dollar are now buying three and four silk shirts a season and paying from \$10 to \$14 apiece for them."

"Even the farm laborer is wearing silk. Dealers from out of town tell me of calls for silk shirts from men on the farms, and say it is the first time since they were in business that it has occurred."

"Naturally, this tremendous demand has had its effect on supply with the resulting increase in prices. Eight months ago good silk shirting sold wholesale for \$1.25 a yard. Today that same material is worth \$2.25 and the top has not been reached."

"This demand does not appear to be just a seasonable one. Already we are besieged with inquiries for goods to be delivered in the spring. Prices then will be higher than they are now."

"The more elaborate the pattern, the greater the demand for it; altho the well dressed man is beginning to revert to the plain white patterns."

BUY COAL THIS WEEK!

We have been preaching for some time on the advisability of buying coal early. Many have heeded our advice—but there remains quite a number who have not. To those we say—buy your coal this week. The unsettled condition of labor demands it. Cold weather soon will be upon us. Don't be caught with an empty bin. We guarantee honest weights and honest coal.

"Gee-Whiz! How it Hurts—The Pain in My Foot!"

"Sometimes it is in my arm. Merciful Heaven, how my back hurts in the morning!" It's all due to an overabundance of that poison called uric acid. The kidneys are no able to get rid of it. Such condition you can readily overcome, and prolong life by taking the advice of Dr. Pierce, which

"Keep the kidneys in good order." "Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably lot water, before meals, and drive the uric acid out of the system by taking Anuric." This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, headache, dizzy spells, or twinge, and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late let Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce's

trial package.

SIMPLE HOME REMEDY ADVISED FOR ROSE AND HAY FEVER

Anyone Can Make a Pint for Trifling Sum and Used in Time May Prevent Annual Attack.

No matter how severe your yearly attack be.

No matter how distressing or humiliating—

its intensity can be reduced to a harmless, mildness.

Says a Kentucky druggist who believes from what he has seen that this simple home made remedy is a most important discovery.

He has seen the most severe and apparently unconquerable cases reduced to what might be called a mild cold in twenty-four hours.

In many cases where the patient started treatment a week or ten days before the expected attack the unwelcome yearly visitor failed to appear with anything like its usual intensity.

People who want to try this new treatment can make a pint in a few minutes.

Four one ounce of Mentholized Arcline into a pint bottle then fill the bottle with water that has been boiled. Gargle daily as directed and sniff or spray the nostrils twice daily.

That's all there is to the treatment which so many sufferers have found to be a true friend.

Mentholized Arcline in one ounce is dispensed by all the better pharmacies.

FASCINATING TEETH

How Every Woman Can Quickly Charm Her Friends With Lovely Teeth, Clean, White and Brilliant

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use tooth paste so effective and perfect that astonishing results usually come in a week's time.

And the cost is so little. Just one to any drug or department store, and get a large tube of ENRECO TOOTH PASTE for 5 cents.

Not only will it make your teeth clean and white, but it will once remove any filmy coating, help to check the ravages of pyorrhea and banish acidity in the mouth.

It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about ENRECO. It's a most delightful and refreshing tooth paste.

MAVERICKS

"Paying the freight" is getting to be a serious proposition for the general public.

That comet discovered in the east by the Harvard expert may be President Wilson's third term presidential boom.

Ole Hansen, Seattle's Swede mayor, has sent in his resignation, saying he was tired and wanted to go fishing. We don't blame him.

Peace Is Expensive. It cost pretty near a million and a half dollars for the peace commission abroad, which the president says is very modest. Well say we didn't get much for our money.

Industrious Man. Walter Myers, who was looking for work, visited his brother Fred and family at Springfield last week.—Barry Adage.

We see no need of the government publishing the total of the loan to the allies from time to time. The figures are so large that the majority of us can't read them.

Down in Pennsylvania burglars are passing up diamonds and jewelry for hams and grape fruit. We don't blame them. A ham is much more useful these days than a diamond and about as expensive.

We don't blame President Wilson for urging that the railroad workers defer striking until an opportunity is given for getting a reduction in prices of commodities. It might have interfered with his speechmaking tour in the interest of the League of Nations.

After striving strenuously for many years it looks now as though Cincinnati is going to at last realize her hopes and ambitions in producing a pennant winner.

It made us thirsty to read about pouring that 12,000 gallons of beer into the street in Chicago.

But if it was like that furnished by the breweries just before war-time prohibition went into effect it was not much loss.

John E. Bretz gave the finest demonstration of "passing the buck" we have ever seen at the meeting of the city council and East State street property owners last Wednesday evening.

Douglas Malloch says an optimist is one who sees a light in the darkness where there is no light.

According to that definition citizens who have been abroad after 11 o'clock at night the past few years are all optimists.

Off hand we would say that the East State street property owners also are optimists.

VINTAGE VINEGAR

The Senate Judiciary Committee is undoubtedly wise in softening the search provisions in the House "dry" bill. Even the most resolute prohibitionist these days is discovering unforeseen difficulties in the task of enforcement. Ominous news comes from the apple orchard. Last year, cider apples cost from 55 to 75 cents a hundredweight; this year they are \$2 a hundredweight, or about three times as much. Vinegar will, of course, keep pace with cider. Crop conditions and the general advance in prices might account for a part of the increase, but for the grand total only one explanation is possible. Farmers, who were rapidly learning to prefer beer, are laying up stores of cider.

To city folk the chief importance of the situation is with respect to salad dressings. In Italy, where salads are properly appreciated, connoisseurs recognize vinegars in vinegar and treasure them as tenderly as vintage wines. In our own near future we shall have to pay vintage prices for such juice of the apple as is left when the rustic thirst is assuaged, but nobody is likely to treasure and closet the vintage of 1919. Bad times are ahead for the salad lover. But for the farmer happy days!

For the federal and State agents who are conjointly to enforce the dry law we have no toast or other form of congratulation. It is an admittedly low order of microscopic fungi that causes fermentation; but there are billions upon billions of them, and they work night and day to transform the most sweetly innocent cider into a pernicious fluid with an 8 to 10 per cent. kick. The most diligent of conjoint supervision will probably not be able to arrest them, or even their activities, at the precise point where they reach their alcoholic limit of one half of one per cent. When the farmer is discovered with cider on his premises which is as hard as the most hardened sinner, and says he is only making vintage vinegar, who is to deny it. A word from his bucolic lips can transform the nefarious activities of those billions of evil workers into the most laudable of productive energy. No such resource is available to the urban workman. Upon the label of his bottle of beer the righteous manufacturer has placed a fair warning that the addition of kitchen yeast will make it intoxicating, and if the workman adds the yeast he cannot avoid the issue. The last state of the liquor of malt and hops is unquestionably worse than the first. Only the farmer's cider is capable of a timely reformation.

Walter Smith of the southeast part of the county made the city a call yesterday.

WOULD HONOR SOLDIERS

Editor of the Journal:—The article of Mrs. Belle Short Lambert in last Sunday's Journal about our indebtedness to the pioneer settlers of Jacksonville for our beautiful trees and shaded streets, was both interesting and opportune.

The Park Board have kindly consented to join in with the "War Mothers of America" in planting trees this fall in Nichols Park, one for every one of our Morgan County soldiers to memorialize their patriotism and our gratitude.

When the avenue leading from the Park to the newly purchased land and around the new reservoir is laid out, we hope it may be called "Soldiers Avenue" or some name identifying it with our soldiers' honor. In this also our War Mothers of America wish to help.

BRADY BROTHERS RECOMMEND

To the Housewife

The White Lily Electric Washing Machine

"If women did not have so much work, they could do their work. Nineteenth of the women who employ house assistants, need employ none if they had no clothes washing to do."

As a matter of fact, men have machinery to do all kinds of work, and if they had to do the washing, the first machine they would buy would be a White Lily Electric Washing Machine. The White Lily Electric Washing Machine is constructed of the very best materials thru-out and is absolutely guaranteed for five years.

The White Lily Electric Washing Machine is constructed to meet the demand for a washing machine, that will do practically all the work of washing, and make wash day a pleasure rather than a bugbear.

The White Lily Electric Washing Machine can be attached to any ordinary electric light socket, and in case the power should fail, can be run by hand just as easy as the ordinary hand machine.

The White Lily Electric Washing Machine is fitted with a special power wringer, that can be started, stopped or reversed in an instant, and is also fitted with a reversible drip board so that the clothes can be run through the wringer from either side, and as both the washing machine and the wringer can be run at the same time, the operator is able to wring out from the rinse water while another washing is being done. This is one of the most important features of the White Lily Electric Washing Machine, as it does all the work instead of about one-third of it, like other machines.

The White Lily Electric Washing Machine is fitted with a bevel gear for starting, stopping and reversing the wringer, doing away with all the trouble caused by its belts slipping, or chains stretching and is absolutely positive in its action.

A real Electric Washer, \$75. Shall we put one in your home on trial?

One of the best features of the White Lily Electric Washer is the fact that the wringer and washer will operate at the same time, and while one tub full is being washed, another can be rinsed, blued and wrung out, and hung on the line.

Another feature is that the belt never needs to be removed from

the wheel, or the power shut off. You can stop or start the washer and wringer, either or both at the same time.

In fact the White Lily is the most durable Electric Washing Machine manufactured. It is not a hand machine fitted up as a make-shift. It's the only real genuine power machine you can buy.

FACTS WORTH YOUR CONSIDERATION

The White Lily Electric Washing Machine is built from the ground up for power purposes, and is not a hand machine fitted up with cheap attachments. It's built stronger throughout than a hand machine. The White Lily Electric Washing Machine lever for stopping, starting and reversing the wringer, is right at the operator's hand all the time, and when moved, falls right into the next place automatically, doing away with the necessity of finding a particular slot, as is the case with most other machines.

The White Lily Electric Washing Machine is so constructed that the operator can feed the wringer with her right hand. Nearly all other machines are left-handed.

The White Lily Electric Washing Machine has all gears absolutely covered, so there is no danger of clothes or persons being caught or injured. The White Lily Electric Washing Machine tub is made from a select grade of Louisiana Red Cypress, and is thoroughly kiln-dried.

The White Lily Electric Washing Machine is guaranteed, and we will replace any defective parts free of all charges for a period of five years.

In short, the White Lily Electric Washing Machine combines every good feature that an electric washing machine should have, viz: Simplicity, durability, convenience and safety.

OFFERS BENNY LEONARD \$20,000 TO MEET WHITE

DENVER, Colo., Aug. 28.—Jimmy Hamill, local boxing promoter today telegraphed Benny Leonard, light weight champion of the world offering him \$20,000 win, lose or draw to meet Charley White of Chicago in a 20 round decision contest for the championship in Denver Thanksgiving Day. This is the largest purse ever offered a light weight to defend his title.

YORKSHIRE COAL STRIKE COSTLY

LONDON, Aug. 14.—Correspondence of the A. P.—The Yorkshire miners strike has been an expensive bit of business for the union as well as for people not directly connected with the dispute. The generally accepted figures are:

Damages to mines \$10,000,000.
Coal lost to industry \$15,000,000.

Losses to kindred industries, \$12,500,000.

The strike fund of the miners, amounting to \$1,400,000 was exhausted with the payment of the fourth week's strike benefits. This fund, it was stated, had taken some 25 years to accumulate.

BOARD ALLOWS DICKERSON'S CLAIM

AUBURN, N. Y., Aug. 30.—The National Board of the National Association of Professional Baseball Leagues today allowed a claim of E. W. Dickerson, a Western newspaper writer for \$6,425 against the Western Baseball League for alleged breach of contract.

Mr. Dickerson was elected to the presidency of the league in 1915 for a three year term and when the league suspended in July, 1919 on account of war conditions, went overseas as a soldier. A. R. Tearney of Chicago was tendered the presidency of the league last February a month before Mr. Dickerson's return to this country.

The board also affirmed its previous decision denying the application of the Texas League to be advanced to a Class A rating.

New rules for the drafting of players were announced by Secretary John H. Farrell. The drafting period will run from October 1 to 10, inclusive.

On Oct. 1, 2 and 3, Class A A. clubs may draft one player from Class A clubs for \$3,000; on Oct. 5, 6 and 7, Class A may draft from Class B, unrestricted number at \$1,800 each, and on October 8, 9 and 10, Class B may draft from Class C, unrestricted, at \$900 each and Class C from Class D, unrestricted, at \$350 each.

TRACTOR DEMONSTRATION

Next Thursday and Friday. Every representation of a tractor in this territory is asked to participate, the idea being to demonstrate the absolute economy of power farming. For further particulars, see County Agent Kendall, at the court house, Jacksonville.

ELIMINATE FOREIGN
TENNIS COMPETITORS

FOREST HILLS, N. Y., Aug. 30.—All danger of the 1919 National Turf Tennis singles championship going abroad at the end of the season was removed today with elimination of the last of the foreign competitors in the thirty-eighth championship tournament of the National Tennis association. The completion of the fifth round three eastern and one western racket expert still in the running and given fair weather the new title holder will be evolved from among William M. Johnston of San Francisco, Wallace F. Johnston, William T. Tilden, II, both of Philadelphia, and R. Norris Williams of Boston. Of this quartette two are previous holders of national titles. Williams won in 1914 and 1916 while Johnston was crowned champion in 1915.

The play today marked the passing of two famous international Davis cup stars and the American title holder of twelve months ago. Norman E. Brookes of Australia left before the tornado-like drives and smashes of Tilden while R. Lindley Murray of Niagara Falls, who won the championship from Tilden a year ago bowed before the racket wizardry of Johnston. Along with Brookes went Maurice E. McLoughlin of Los Angeles, who five years ago defeated Brookes and Anthony Wilding in the greatest Davis' cup matches ever witnessed. Brookes made a bet showing in his elimination match that Tilden or McLoughlin would have won in all probability in straight sets.

His service today was beyond anything ever seen on a tennis court, the ball coming off his racket like a white streak with a speed that exceeded anything ever shown by McLoughlin. Tilden scored no less than 16 clean aces and in addition forced Brookes to commit more errors in his attempt to return these shots. In fact, Tilden was so completely off his form.

An analysis of the playing cards of the two men shows that Tilden won three sets to one, 22 games to 18, 125 points to 113. The stroke analysis shows 35, 47 nets to 27, 5 double faults to 2, 38 places to 23 and 16 service aces to 3.

In defeating Murray the 1918 champion, Johnston showed a continuation of the form which enabled him to eliminate Patterson yesterday. The match also showed the versatility and the court strategy of Johnston's game.

The other matches of the day were less stiffly contested.

INDEES WILL PLAY SUNDAY AND MONDAY

Lafayette Cadets Will Be Opponents Sunday—Virden Nationals Will Play Labor Day—Both Games Promise to Be Hard Fought.

Baseball fans are promised two good baseball games today and tomorrow. This afternoon the Indees opponents will be the Lafayette Cadets of Springfield. On Labor Day the Virden Nationals will be the Indees opponents.

In the lineup of the Cadets are a number of faces familiar to local baseball fans. Hartman, who may hurl the game has appeared here with other Springfield teams and also pitched for the Jacksonville team in the season of 1916.

Flanagan, Griffin, Seguin and Stuart also have been seen in action here. Fones is slated with Hartman as the probable pitcher. He has been pitching some good ball around Springfield and will make the Indees step some.

The Virden Nationals need no introduction here. They have a team of good ball players and all of them hit the ball hard. They play the old fashioned game. Walk up and take a healthy swing at the old pill and it usually goes to the place where they hit it too.

They lost the last encounter to Jacksonville and will try to even the count this time.

It is not known who will pitch the game this afternoon. Chuck Riggs pitched part of the game at Ashland the other day and showed up well. He may be selected for the mound work. However, if White, who has been out of the city for two weeks, returns in time it is probable he will get the job. Padgett will pitch the Monday game. The lineup for today follows:

Indees—Mahan, lf; Briggs, ss; Ruble, 2b; McManus, 3b; Christopher, c; Sims, 1b; Riggs, cf-p; Padgett, White, cf-p.

Cadets—Hartman, Fones, p; Nation, c; Moore, 1b; Griffin, 2b; Flannigan, ss; Seguin, 3b; Parrad, lf; Pruitt, cf; Stuart, rf.

Umpire Abell will call both games at 3 o'clock.

"INTERESTS THAT MOVE NEWSPAPERS"

Southern Editor Devises a "Formula" by Which "Profound Students" May Save Time.

From Louisville Courier-Journal. For the ready reference of those profound students of public subjects who are positive that a newspaper is owned or dominated by a particular interest when it does not agree with the views of the aforesaid profound students, the Courier-Journal at great labor and expense has compiled a tabulated formula by which any one at a glance may ascertain just what interest owns or dominates any newspaper any time. The main virtue of the formula is its simplicity. It needs no key. It is presented freely to the public without even a copyright protection. It will save much vexatious speculation among those who readily perceive a hidden and ulterior motive behind a newspaper's policies, but cannot readily understand what that motive is. It will be of especial value to many classes of politicians, pamphleteers and orators. First will be stated the policy of the newspaper and immediately will be shown the corresponding interest owning or dominating the newspaper itself. Behold, the formula:

For good roads—owned by the cement manufacturers. For enforcement of ordinances requiring tail lights to be kept burning on automobiles at night—controlled by lamp manufacturers.

For free text books for public school children—dominated by the book publishing houses. Against government ownership of railroads—controlled by Wall street and railroad interests.

For government ownership of railroads—dominated by Wall street and railroad interests, who desire to trade their fluctuating and watered stocks for gilt-edged United States bonds, with a guaranteed income.

Against profiteering—dominated by radicals who desire to bring disaster to capital.

Against incompetence or abuse of authority by a Democratic officeholder—controlled by the Republican organization.

Against incompetence or abuse by a Republican officeholder—dominated by the Democratic organization.

For a policy in the public interest, pursued by a Republican-owned body and soul by the Republican party.

Against socialism, bolshevism and communism—owned by Wall street.

For prohibition—controlled by a coalition of soft-drink manufacturers and politicians.

Against prohibition—bought by the distilleries and breweries.

Against an increase in street-car fares—purchased by Socialists and radicals.

For an increase in street car fares—subsidized by the railway companies.

For the courteous hospitality to the Prince of Wales—owned outright by Great Britain.

Against one-piece bathing suits for women—bought by Ziegfeld, to overcome competition with his "Follies."

For longer skirts for women—controlled by the dry goods manufacturer.

For a revival of interest in poetry—purchased by poets.

Against clouds of smoke in the city air—dominated by the manufacturers of smoke consumers.

For another epidemic of Spanish influenza—controlled by the physicians and undertakers.

Against said epidemic—subsidized by the theatrical interests.

There is one serious defect in the table. It is not arranged alphabetically. We must apologize to our consumers for this. But an alphabetical arrangement would add so greatly to the expense as to make that improvement beyond reach. It is recommended that each profound student make his own alphabetical arrangement if the omission proves inconvenient. It will help him to keep cool on winter evenings.

IT'S NET PROFITS \$400,000

But Stars and Stripes Needs Law to Give Money to French Orphans.

But few of the host of overseas men knew the inner workings of the Stars and Stripes, the newspaper of the A. E. F. in the war. William K. Michael of the Reciprocal News Service of London is one of those who did. He was business manager of the Stars and Stripes during his soldier days. He is in Chicago for a few days and talked of the soldier paper and its beginning.

"When the 101st Machine Gun Battalion of the 26th Division went over in August, 1917, Hudson Hawley and myself started a little battalion paper called the Tripod," said Mr. Michael, at the Hotel LaSalle. "We lasted for two weeks and then received notice from our battalion commander to stop publication. We had tried to stay within the censorship regulations and the order came as a sad blow. Then the major told us to report to the censorship division at Neufchateau and we felt worse. We were sure that we were going to jail. But at Neufchateau we were told that the army was going to run a big paper for the entire A. E. F. and we were asked what we could do. January 11, Hawley and I were ordered to go to Paris and get started. February 8 the first edition of the Stars and Stripes appeared. My work was to teach French printers how to print the American language. Hawley's was to write the first two editions and he had to do it alone.

"The paper started the 'adopt an orphan' idea in the army and found homes for more than four hundred French war orphans. When it wound up its affairs it had a profit of 2 million francs (\$400,000). The paper wanted to give this to a fund for French war orphans, but the Secretary of the Treasury decided it couldn't be done without special act of Congress, and that is now pending."

LOW COST HAULING

What Every Business Man Wants

The International—The Low Cost Truck.

The Average Motor Truck Purchaser is not so much interested in how a motor truck is built. What really interests him is how much mileage he is going to get out of his truck for every dollar invested. International Motor Trucks have been built with this one feature constantly in mind hauling the load the greatest distance with least expense.

A Motor Truck That Lasts—Every part of an International Motor Truck that is subject to wear is provided with a removable bearing or bushing. If these parts are replaced when worn, the truck is given the care and attention that any high grade machine deserves, an International truck will last and serve for years. Years of service is what the business man wants and years of service is what he gets with the International.

Appearance That Adds Dignity to Business—All other things being equal, customers favor the man whose equipment makes the best appearance. International Motor Trucks have that staunch and business-like appearance that inspires confidence in a business house and in the products it handles. They add an air of prosperity and dignity that proves a valuable asset.

A Real "Service to the Owner" Organization—There is an International Motor Truck of a size to meet almost every hauling requirement. We have a service and selling organization without an equal in this section of the country. Think what this means to you after you have become an owner. We are strong and the International organization is strong on "Service to the Owner," after the sale is made. Come in to our salesroom and see what we have to offer in trucks and service.

The Successful Farmer

is the one that is always looking for facts so he can improve his condition in life. Large Crops to feed a hungry nation is the best medicine for a discontented people. To raise the maximum crop it is necessary to have the proper tools. A big wheat crop is needed. To have proper germination of seed you must have the proper seed bed; this means Disc before you plow and drag and harrow after you plow.

Then put your seed in properly by using a

"Superior Drill"

This drill is just what its name signifies—superior—and if you will call at our place we will show you: The frame of the superior is the strongest foundation ever placed under a grain drill: The feed is the nearest perfection ever devised: The Disc Bearings are guaranteed for life. To know this tool you must use it, to use it you must buy it, to buy it you must see it. Come in and see the Superior of all Grain Drills.

FARM PROPERTY

Near the Joy Prairie elevator we offer a farm of about 160 acres, of which 70 acres are in grass and the balance in cultivation. There is a six room house with summer kitchen, barn for eight horses, and other buildings. Price \$150 per acre.

Northeast of the city we offer 30 acres, mostly timber land, with some excellent farming land and all well kept. Nice two story house, large barn, stock scales and other buildings. Price \$250 per acre.

Northeast of the city we have 120 acres of timber edge land, some excellent back soil and with a fair set of improvements and nicely located. Price \$275 per acre.

One mile from Murrayville, we have 80 acres of land, 10 acres in pasture and the balance in cultivation. Well fenced and well improved. Nice little home for \$300 per acre.

South of the city we have 80 acres mostly good farming land; well fenced with very ordinary improvement. Price \$250 per acre.

East of the city we have a little less than 100 acres of excellent black prairie land; well improved. A corner farm with fine buildings. Price \$250 per acre.

CITY PROPERTY

A two flat building on west side. Everything modern. Price \$2000.

On Grove street we have a new eight room residence, modern throughout. Price \$500 for immediate sale.

A splendid new residence in the west end, all modern with sleeping porch, combination barn and garage, chicken yard and fruit. Price \$2500.

We have sold three more farms this week and still have buyers coming every day. 120,000 people in the United States and no more land than we had 100 years ago; no wonder we have more and more buyers each year. Here will be more buyers next year but no more land.

Moral: Get yours now.

Call for dates. Do not call on Sunday as I am otherwise employed on that day.

From County Agents Office

Thrashing Rates.

In his time the county agent has paid for thrashing at so much per bushel when the entire crew were boarded; also at a higher rate when the threshermen furnished everything. This season, while in the northwest, he had the experience of paying for thrashing at so much per hour for the time the machine was in actual operation. A 28 inch cylinder separator pulled by a tractor thrashed at the rate of \$6.50 per hour. A 32 inch cylinder pulled by a tractor charged \$7.50 per hour. When the yields are high these rates are very advantageous to the farmers. When the yields are low the advantage is on the side of the threshermen.

Farm Bureau Development

Farm Bureaus develop in different ways in different localities according to the character of the farming carried on in that region. Clay County, Minnesota, has a county agent, a weed expert, a home demonstration agent and recently the potato growers association has employed a special secretary to look after the improvement and marketing of seed potatoes. This secretary has his office in connection with the Farm Bureau. As secretary of the potato growers association he will make it his business to inspect potato fields and certify those that are free from disease. Hereafter when people have bought seed potatoes some jobber has unloaded a lot of potatoes of all sorts and kinds upon the purchaser. As a result the seed potato business, in the Red River Valley, has been injured and these potato growers propose to make it interesting for the buyers who do not play the game square. The weed expert makes it his business to inspect farms and see that they are free from obnoxious weeds. At present they must rely upon public opinion to enforce his decision. The time is not far distant when that state will have a law authorizing public authorities to clean up a farm and assess the cost against the land. In Canada in extreme cases, the crop may be turned under at the expense of the land owner.

Tractor Demonstration

Demonstrations of this sort are popular and very much in order at the present time. A number of tractor operators and agents have asked the county agent to assist them in advertising a tractor demonstration in some central place this coming week. As yet, the details have not been arranged. In all probability such a demonstration will be put on toward the end of the week. The county agent would be very glad to hear from land owners who are willing to let the tractors plow on their land as well as from tractor operators who wish to enter.

A NEW COLOR ANNOUNCED

"Fluides" Will Be Worn This Fall, A Paris Merchant Says.

"Fluides" said the Paris merchant, "will be worn next autumn for the evening gown."

I gasped—"fluides" frocks seemed to suggest more indiscretion than we have been showing even with the very short skirt and the too décollete gowns of the past few months.

"Fluides" is one of the new silks we are ordering from Lyons," he explained. "It is a new color."

It is wonderful nowadays how fashionable colors are named. We have had tints and shades given us to wear described as midnight blue, daylight green, raspberry red, coral rose, and wine pink, but the latest innovation is undoubtedly "fluides."

As it suggests it is fluid color, and as water can be practically colorless or otherwise, we are threatened with an amazing array of "fluides" shades. The possibilities are immense. A Thames dock "fluides," for instance, is very different in shade from the blue "fluides" of the Mediterranean; there are "fluides" in glasses and other little sparkling "fluides" in rippling brooks running through meadows, all different and individual.

So far, however—and, this is very important early news—Paris has decided on three shades of "fluides" silk which are of the blue to gray graduations.

There are a few other colors on the way to London town from the center of fashion—"pruneaux" and "raisins" which explain themselves.

But strange are the little caprices of the dame who is assumed to reign over the fashion world.

Mrs. Arthur Woods says suffrage has raised the American woman above trivialities. May we hope that in speaking of trivialities, she does not allude to the kitchen stove and the sewing machine.

My office will be closed all day, Labor Day.

SCOTT ANNOUNCES

SPECIAL PICTURE WEEK

"The whole week of August 31 to September 6 will be devoted to a drive for better pictures in thousands of the better theaters, big and small, all over America."

"What a nation does with its spare time is a mighty good test of the heart of a nation."

"And the verdict of America's whole heart and mind on Paramount-Artcraft leaves no shadow of doubt as to what sort of screen entertainment America prefers."

Based on a record of actual performance Famous Players-Lasky Corporation now promises some new and surprising screen achievements, beginning this week.

"After seven years of gathering way Paramount-Artcraft has mobilized all the great geniuses of production; dramatists, directors, artists, technicians; and is equipped with facilities of the utmost magnitude to capture from the realm of soaring imagination photoplays that make you laugh—and cry—and think!"

"As in the past the proof is written large in increased showings at more theatres, more frequent attendance by more people, and the making of that better theatre in every community the magnet that draws the people as surely as the moon draws the tides."

Jacksonville joins in the national drive for better motion pictures

This week begins the greatest motion picture season in the history of the screen

THE whole week will be devoted to a drive for better pictures in thousands of the better theatres, big and small, all over America.

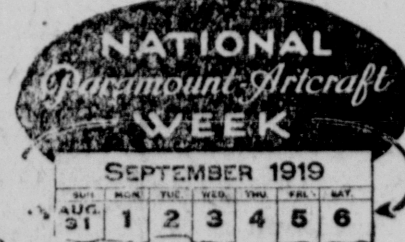

What a nation does with its spare time is a mighty good test of the heart of that nation.

And the verdict of America's whole heart and mind on Paramount-Artcraft leaves no shadow of doubt as to what sort of screen entertainment America prefers.

Based on a record of actual performance Famous Players-Lasky Corporation now promises some new and surprising screen achievements, beginning this week.

After seven years of gathering way, Paramount-Artcraft has mobilized all the great geniuses of production; dramatists, directors, artists, technicians; and is equipped with facilities of the utmost magnitude to capture from the realm of soaring imagination photoplays that make you laugh—and cry—and think!

As in the past the proof is written large in increased showings at more theatres, more frequent attendance by more people, and the making of that better theatre in every community the magnet that draws the people as surely as the moon draws the tides.

Theatres showing this Calendar-Section in their newspaper advertisements and house programs are co-operating in this drive for better motion pictures.
